PRELIMINARY STATEMENT

I.      Establishment of Regulatory Commission of Alaska Tariff Number 165

Regulatory Commission of Alaska Tariff Number 165 is established to provide standardized schedules of rules, regulations, rates and services.

The provisions of Sections 3 AAC 53.243 of the Alaska Administrative Code; and the rules, regulations and orders of the Regulatory Commission of Alaska now in effect, or hereinafter issued are by reference made a part of this tariff.

II.     Rules, Regulations, Rates and Charges

The rules, regulations, rates and charges stated herein apply uniformly to all exchanges unless otherwise specified.

Basic local access service and other offerings which are not universal to all exchanges are noted as such and they shall apply only to the exchange where applicable.

RCA No. 165      Original      Sheet No. 1107

Cancelling \_\_\_\_\_ Sheet No. \_\_\_\_\_

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

ACCESS CODE - The sequence of numbers that, when dialed, connects the caller to the operator service provider associated with that sequence, as opposed to the operator service provider presubscribed to the originating line.

ACCESS DENIAL - Service provided by the Company which denies access to selected features of the telecommunications system from that access line or station.

ACCESS LINE - The serving central office equipment and all outside plant facilities needed to connect the central office with the customer premises. The facilities are Company provided and maintained to provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariff offering selected by the customer.

ACTUAL COST - Defined as cost of labor and materials, including the charges for supervision and other overhead.

ADDITIONAL LISTING - Any listing of a name or other authorized information in connection with a customer's telephone number in addition to that which he is entitled in connection with his regular service.

ANONYMOUS CALL REJECTION - A CLASS feature that automatically rejects calls from a calling party who uses call blocking.

Tariff Advice No. TA110-165

Effective: January 24, 2008

Issued By: **INTERIOR TELEPHONE COMPANY, INC.**

RCA No. 165                      Original                      Sheet No. 1108

Cancelling \_\_\_\_\_ Sheet No. \_\_\_\_\_

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

APPLICANT - An individual, firm, corporation, partnership, institution, or association, whether public or private, applying for or requesting telephone service from the Company.

AUTOMATIC CALL RETURN - A CLASS feature which allows the customer to direct the central office to dial the telephone number of the last incoming call to the customer's telephone including non-published and non-listed callers.

AUTOMATIC REDIAL - A CLASS feature which allows the customer to direct the central office to place a call to the telephone number of the last outgoing call from the customer's telephone.

"B" CHANNEL - A bi-directional 64 Kbps synchronous channel used for information transfer (voice/data) from user to user.

BASIC EXCHANGE TELECOMMUNICATIONS RADIO SERVICE (BETRS) - A proprietary wireless carrier system providing basic telephone service.

BRIDGING - A special local access arrangement which allows 3 or more customer designated premises to be connected through a hub to form a multi-point service arrangement.

BURIED CABLE - A cable or wire designed for use in underground construction and utilized in extending the utility's telephone plant. As used herein, buried refers to direct buried cable or wire as opposed to underground cable that refers to cable or wire in a conduit system.

BUSINESS EXCHANGE ACCESS SERVICE - Access line service provided to a customer whose actual or obvious predominant use is of a business, professional, institutional or otherwise occupational nature.

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

BUSINESS OFFICE - The office of the Company that handles customer billing, collections and requests for service.

CALL BLOCKING - A CLASS feature which allows the calling party to control whether or not their directory number is to be delivered to the called party when making an outgoing call.

CALL BLOCKING - PER CALL - A CLASS feature that allows the calling party to designate their directory number as private and prevents delivery to a called party using Caller ID. On a per call basis, the calling party dials the call blocking-per call activation code which prevents their telephone number from being displayed.

CALL BLOCKING - PER LINE - A CLASS feature that continually designates a calling parties' directory number as private and prevents delivery to a called party using Caller ID. On a per call basis, the calling party may dial the per call unblocking activation code which allows delivery of their directory number to the called party using Caller ID.

CALLER ID - A CLASS feature that allows the called party to view the telephone number of an incoming call before answering the call.

CENTRAL OFFICE - A telephone company building where customers' lines are joined to switching equipment for connecting other customers to each other, locally and long distance.

CENTRAL OFFICE COIN SUPERVISION - Provides a Pay Station Provider (PSP) using semi-postpay phones with the ability to control the voice path to the pay phone based on payment to the PSP.

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

CHANNEL - A path for communication between two or more locations, or central offices, furnished in such a manner as the Company may elect, whether by wire, carrier, microwave, radio or a combination thereof.

CHANNEL TERMINATION - A rate element associated with special access service. It relates to the facilities and termination between the customer designated premises and the Central Office utilized in a special access configuration.

CIRCUIT - The physical connection, or path of channels used for the transmission of electrical energy in the furnishing of telephone and other telecommunications services between two given locations.

CLASS - Custom Local Area Signaling Services. CLASS consists of number-translation services, which creates such features as Caller ID, available within a local exchange.

CLASS OF SERVICE - A description of telecommunications service furnished to a customer that denotes such characteristics as nature of use -- business or residence -- or type of rate.

COMMISSION - Regulatory Commission of Alaska.

COMMUNICATIONS SYSTEMS - Customer owned and maintained facilities which are capable, when not connected to the local network, of two-way communications between customer-provided terminal equipment or stations.

COMPANY - Interior Telephone Company, Inc.

Cancelling \_\_\_\_\_ Sheet No. \_\_\_\_\_

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

CONNECTING ARRANGEMENT - The equipment used to accomplish the direct electrical connection of certain customer provided facilities with the facilities of the Company.

CONTRACT - The agreement between a customer and the Company under which service and facilities are provided in accordance with the applicable provisions of this tariff.

COST - The cost of labor, material and engineering that includes appropriate amounts to cover the Company's general operating and administrative expenses.

CUSTOM CALLING FEATURES - Selective special dial features for enhanced communications services.

CUSTOMER - The individual, firm, partnership, association, corporation, cooperative, municipality, organization, or governmental agency who contracts for telecommunications service and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

CUSTOMER PREMISE EQUIPMENT (CPE) - Devices or apparatus and their associated wiring, provided by the customer, which do not constitute a communications system and which, when connected to the facilities of the telephone system, are so connected as to conform to FCC rules. Complete ownership and maintenance responsibility resides with the customer.

"D" CHANNEL - A 64 Kbps channel primarily used for signaling messages and/or packet switched user data. The bit rate is fixed as a function of the interface used.

DATE OF PRESENTATION - The date upon which a bill or notice is mailed or delivered to a customer.

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

DEMARCATIION POINT - The point of interconnection between Company communications facilities and terminal equipment, protective apparatus or wiring at a customer's premises, (network interface device). The point between the wiring that comes from the telephone company and the wiring that is customer owned and maintained inside their location.

DIRECTORY LISTING - Essential information in the Company's telephone directory relative to the customer's name or other identification and telephone number.

DS-1 - Digital signal, Level 1. A hierarchy of digital signal speeds used to classify capacities of digital lines and trunks. It is 1.544 million bits per second.

DUMB PAYPHONE - A pay phone which requires coin service signaling which is provided by the operator services provider.

EMERGENCY - A situation that exists when serious sickness or public health and safety are involved.

ENHANCED LIFELINE SERVICE - A reduction in the local residential monthly recurring service charges. Lifeline service is available to qualifying residential customers of the Company and is applicable only to their principal residence.

EXCHANGE - An aggregate of traffic carrying devices, switching stages, controlling and signaling means at a network node that enables subscriber lines and/or other telecommunication circuits to be interconnected as required by individual callers.

DEFINITION OF TERMS

EXCHANGE AREA - An area within which the Company holds itself out to render local telecommunications service from the central office serving that area in accordance with the applicable provisions of this tariff.

EXPANDED LINKUP ASSISTANCE - Provides a discount of the applicable non-recurring new service connection charges. Expanded Linkup is available to qualifying residential customers of the Company who apply for basic residential service at their principal residence.

FACILITIES - All the cable and equipment of the Company and all instrumentalities owned, operated, licensed, used, controlled, furnished, or supplied for or by the Company in connection with furnishing telephone service.

FACILITY RESERVATION SERVICE - Service provided to reserve the facility and/or telephone number for a period of time

FOREIGN EXCHANGE DIRECTORY LISTINGS - An alphabetical and directory listing in the directory of an exchange other than the exchange in which a customer is furnished local service.

HUB - A communications center: a point at which channels are interconnected (i.e., central office, pedestal, wire center).

HUNT SERVICES - A telephone line arranged to select when busy, an other available line or a customer's group of hunt lines.

INTERCONNECTION - The method by which telecommunications facilities of a utility are arranged to transmit or receive information from customer provided equipment.

INTERFACE - A physical point of demarcation between two devices where electrical signaling, connectors, and timing are defined.

DEFINITION OF TERMS

LINE EXTENSION - The cable required in addition to existing facilities to render telecommunications service in areas without service.

LOCAL ACCESS SERVICE - Telecommunications service between customer locations within the local service area.

LOCAL CALL - A call between two customers within the local service area.

LOCAL DIRECTORY ASSISTANCE SERVICE - Access to the directory assistance provider to obtain other local telephone numbers.

LOCAL SERVICE AREA - See Exchange Area.

LOOP - A channel provided by the Company connecting one location to another.

MESSAGE - A completed customer call.

DEFINITION OF TERMS

MINIMUM CONTRACT PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

MOBILE SWITCHING CENTER – The location of a wireless carriers switching system where wireless calls are connected to the public switched network.

MULTIPLEXING - Technique of dividing a single transmission channel into two or more channels.

NETWORK INTERFACE DEVICE - The associated equipment installed by the Company and located at the customer's premises at which an access line terminates. Also known as the demarcation point.

NON-LISTED NUMBER - The customer telephone number, which at the request of the customer, is not listed in the Company's directory but can be obtained from directory assistance services.

NON-PUBLISHED NUMBER - The customer telephone number, which at the request of the customer, is not listed in the Company's directory nor available from any other source for the information of other telephone customers.

NON-RECURRING SERVICE CHARGE - A one-time charge associated with certain installations, changes or transfers of service, either in lieu of or in addition to recurring monthly charges.

OFF PREMISE EXTENSION – An additional appearance of a telephone line at a location other than the premise which houses the primary line location.

PAY PHONE - See Pay Telephone.

DEFINITION OF TERMS

PAY STATION PROVIDER - An entity that provides pay telephone services, which is the provision of a telephone to the public on a fee-per-call basis.

PAY TELEPHONE - A telephone that can be connected to a public access line and is capable of providing local exchange and interexchange service by use of a coin, a credit card or by other means of payment.

PERMANENT DISCONNECT - A discontinuance of service in which the facilities used to provide telecommunication services are immediately available for use for another service.

PORT - A physical interface that allows entrance to, or exit from a hub. Ports are located on a bridge.

PREMISES - The customer's residence or place of business.

PRIMARY RATE INTERFACE (PRI) LINE - A four-wire facility which extends from a central office to a point of demarcation at a customer location. The PRI is a 1.544 Mbps carrier facility which is used to connect digital private branch exchanges or other channel controlling devices to the switched and private line networks.

PUBLIC ACCESS LINE - Basic exchange access service provided to a pay station provider for use with pay telephone service.

RECURRING CHARGE - The monthly charges for services provided by the Company according to the rates filed in this tariff.

REGULATORY COST CHARGE - A special surcharge applied to all regulated retail customer billings to pay the utility's share of the budget of the Commission.

RESIDENTIAL EXCHANGE ACCESS SERVICE - Access line service provided to a customer whose actual obvious use is of a domestic nature.

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

SELECTIVE CALL ACCEPTANCE - A CLASS feature that allows the customer to designate a list of directory numbers from which the customer wishes to receive calls. The originator of an incoming call from a telephone number that is not on the list will receive a telephone company recorded announcement.

SELECTIVE CALL FORWARDING - A CLASS feature that allows customers to ensure that selected incoming calls from designated telephone numbers reach them at a forwarded location. If the calling number does not match an entry in the list, normal call termination occurs. The customer must have standard call forwarding for this feature to be applicable.

SELECTIVE CALL REJECTION - A CLASS feature that allows a customer to designate a list of directory numbers from which calls are to be rejected or blocked. Calls from telephone numbers on the list are routed to a telephone company recorded announcement. If the calling number does not match an entry in the list, normal call termination occurs.

SMART PAYPHONE - A payphone which contains all the circuitry required to execute coin acceptance and related functions within the instrument itself and does not require central office coin supervision.

SPECIAL ACCESS SERVICE - A dedicated transmission path leased by a customer to furnish communications between two or more customer designated premises for their exclusive use and not having direct access to the exchange network.

**INTERIOR TELEPHONE COMPANY, INC.**

DEFINITION OF TERMS

SPECIAL CONTRACT - An arrangement between a customer and the Company for utility service or facilities furnished to the customer not specifically provided for in this tariff which has been filed with and approved by the Commission.

SPECIAL INTERCEPT SERVICE - A service of the Company requested by the customer in which a phone call is redirected by a recording providing the caller with a new number.

STANDARD INTERCEPT SERVICE - A service of the Company in which a phone call is redirected by a generic recording telling the caller that the call cannot be completed for some reason other than a new phone number, that will be explained in a recorded message.

SUBSCRIBER - See Customer.

TARIFF - The rates, charges, rules and regulations relating to the service offered, the conditions under which it is offered and the charges thereof, which have been filed with and approved by the Commission.

TELEPHONE COMPANY - See Company.

TELEPHONE SERVICE - Any telecommunications service provided by the Company for the customer's use.

TERMINATION CHARGE - A charge applied under certain conditions prescribed by the tariff when a contract for service is terminated by the customer before the expiration of the minimum service period.

TERMINATION OF SERVICE - Discontinuance and cancellation of the account.

TOLL CALL - A telephone call to a station outside the customer's local calling area for which a specific charge applies.

TRADE NAME - The name or style under which a concern conducts its business and by which it is generally known to the public.

TRANSPARENT LAN SERVICE - A transport service for interconnection of Ethernet local area networks.

DEFINITION OF TERMS

TRIBAL LANDS - Tribal Lands are defined as reservations or near reservations as those terms are defined in Subpart A of the regulations promulgated by the US Department of the Interior's Bureau of Indian Affairs (BIA). Tribal Lands include any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the US Government for the special programs and services provided by the Secretary of the Interior to Indians because of their status as Indians. All of Alaska is tribal land for the purpose of eligibility for the Enhanced Lifeline and Linkup programs.

TROUBLE REPORT - Notification to the Company, verbally or in writing, of a failure or fault affecting the service provided by the system.

UNDERGROUND LOCATE SERVICE - A field visit to a requester's site to determine and/or mark the location of the Company's underground facilities.

UNIVERSAL ACCESS SURCHARGE - A surcharge established by the state legislature to fund dual party telecommunications relay service (TRS).

USER - The user of the service regardless of the identity or location of the customer of the service.

UTILITY - See Company.

VIP ALERT - A CLASS feature that allows the customer to designate a list of directory numbers that should be automatically identified by distinctive ringing, or, if the customer's line is in use, a distinctive call waiting tone. The customer must have standard call waiting to the line for distinctive call waiting to be applicable.

WIRELESS CARRIERS - Providers of one way paging services and two way mobile, cellular and cellular-like services.

GENERAL RULES AND REGULATIONS

A.      APPLICATION

The rules and regulations specified herein apply to local services and facilities furnished by Interior Telephone Company, Inc., hereinafter referred to as the Company, in its competitive, nondominant exchanges, subject to the jurisdiction of the Regulatory Commission of Alaska.

Failure on the part of the customer to observe these rules and regulations of the Company, after written notice of such failure, automatically gives the Company the privilege to discontinue the furnishing of service.

No officer, employee or agent of the Company has the authority to change, amend, or waive any rate or regulation approved or prescribed by the Commission. Rates and regulations may be changed or canceled only with the consent or approval of the Commission.

This tariff cancels and supersedes all other specific tariffs of the Company issued and effective prior to the effective date of this tariff.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

B.      EXPLANATION OF SYMBOLS

- (C)      Signifies a changed regulation.
- (D)      Signifies discontinued rate, condition or regulation.
- (I)      Signifies an increase.
- (L)      Signifies material that has been relocated from or to another sheet or place in the tariff with no change to text, rate, rule or condition.
- (N)      Signifies a new rate, condition or regulation.
- (R)      Signifies a reduction.
- (S)      Signifies reissued matter.
- (T)      Signifies a change in text for clarification.

C.      OBLIGATION AND LIABILITY OF THE COMPANY

1.      Availability of Facilities

The Company's obligation to furnish service is dependent on its ability to obtain, retain and maintain, without unreasonable expense, suitable facilities and rights for construction and maintenance of the necessary circuits and equipment.

Tariff Advice No. TA110-165

Effective: January 24, 2008

Issued By: **INTERIOR TELEPHONE COMPANY, INC.**

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

C. OBLIGATION AND LIABILITY OF THE COMPANY - continued

1. Availability of Facilities - continued

Where facilities beyond those normally required are provided to satisfy customer requests not specifically covered in this tariff, charges based on the additional costs incurred to provide the service will be charged to the customer.

The charges specified in this tariff do not contemplate work being performed by the employees at a time when overtime wages apply, due to the request of the customer.

If the customer requests that overtime labor be performed, an additional charge, based on the additional costs involved, applies and must be agreed to by the customer before the work can be performed.

When the construction of certain facilities is necessary for the furnishing of service, the ownership of such facilities will be vested in the Company, even though all or part of the cost of construction is borne by the customer.

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

C.      OBLIGATION AND LIABILITY OF THE COMPANY - continued

2.      Liability

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failures or defects in facilities furnished by the Company, occurring in the course of furnishing service and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission, or failure or defect in facilities occurs.

3.      Transmitting Messages

The Company does not undertake to transmit messages but offers the use of its facilities for communications between parties. No liability should attach to the Company because of any errors or misunderstandings that may arise by having used these facilities.

Tariff Advice No. TA110-165

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

C. OBLIGATION AND LIABILITY OF THE COMPANY – continued

4. Interruptions of Service

The objective of the Company is to clear all out-of-service trouble tickets within either 1) 48 hours at locations accessible by maintained highway from a manned utility repair facility or 2) five (5) days for all other locations following the reporting of the trouble to the Company (Saturdays, Sundays, and holidays excepted.)

In the event of an interruption to service, which is not due to the negligence of the customer, an allowance will be made, upon request, if the interruption occurs for more than 24 hours from the time it is reported to the Company.

The allowance will be the prorated portion of the monthly rate for the service or the portion of the service made inoperative in excess of the above specified periods. Each month shall be considered to have 30 days for the purpose of calculating the allowance.

5. Directory, Listings and Numbers

a. The Company will furnish to its local exchange customers, without charge, one directory per access line for the efficient use of the service, but not less than one directory per access line. Copies of additional directories may be purchased from the Company.

b. Directory listings are subject to copyright laws of the United States and all rights are reserved by the Company. Any reproductions, reprints, copies or other duplications are prohibited unless performed with the written consent of the Company.

GENERAL RULES AND REGULATIONS

C. OBLIGATION AND LIABILITY OF THE COMPANY - continued

5. Directory, Listings and Numbers - continued

- c. The Company, except as provided here in this paragraph, shall not be liable for damage claimed on account of errors in or omissions from its directory nor for the result of the publications of such errors in the directory nor will the Company be a party to controversies arising between customers or others as a result of listings published in its directories.
- d. In the cases of additional listings in the alphabetical section of the directory for which a charge is made, the Company's liability shall be limited to cancellation of the charges and refunding of any charges already paid at the request of the customer.
- e. The Company assumes no liability whatever for damages arising from errors or omissions in the making of or printing of the advertising section (yellow pages).

GENERAL RULES AND REGULATIONS

C. OBLIGATION AND LIABILITY OF THE COMPANY - continued

6. Customer Relations

a. The Company shall:

- (1) Maintain a current set of maps showing the physical locations of its facilities and service areas;
- (2) Assist the customer or applicant in selecting the most economical rate schedule;
- (3) Notify customers affected by a change in rates or regulations;
- (4) Furnish such additional information on rates and services as the customer may reasonably request.

b. Customer Complaints

Complaints against the Company shall be made verbally or in writing. Upon receipt the Company shall promptly investigate and advise the customer either verbally or in writing of the disposition of his complaint as a result of the investigation.

Should the customer not be satisfied with the disposition of the complaint he may bring the complaint to the attention of the Regulatory Commission of Alaska.

C. OBLIGATION AND LIABILITY OF THE COMPANY - continued

7. Defacement of Premises

The Company shall exercise due care in connection with all work done on the customer's premises. No liability shall attach to the Company by reason of any defacement or damage resulting from the existence of the Company's equipment and associated wiring, or by the installation or removal thereof, unless defacement or damage is the result of the sole negligence of the Company.

D. USE OF SERVICE AND FACILITIES

1. Provision and Ownership of Facilities

Except as otherwise provided in this tariff, the Company will, at its own expense, furnish, install, and maintain all facilities for basic service, to the point of demarcation, necessary to serve applicants or customers in accordance with its filed tariff.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

D. USE OF SERVICE AND FACILITIES - continued

1. Provision and Ownership of Facilities - continued

Such facilities and equipment, when provided by the Company, and located on the customer's premises are the property of the Company which has the right of ingress and egress from the customer's premises for purposes connected with the furnishing of telephone service and to exercise any and all rights secured to it by law of these Rules and Regulations. The Company is not liable for any unavoidable damage to the customer's premises resulting from the attachment of its equipment and associated wiring on such premises, or from the installation or removal thereof.

All facilities furnished by the Company shall be carefully used and shall not be moved or removed except by an authorized representative of the Company. The Company will be reimbursed for any loss or damage to its facilities on the customer's premises resulting from intentional destruction or any other cause except from fire or unavoidable accidents.

2. Limitations and Use of Service

a. Use of Customer's Service

The use of service shall be restricted to the customer, his employees and representatives in the case of business service; or the customer, his family and persons residing in the customer's household in the case of residential service; except as otherwise specified in the Company's applicable tariffs.

For billing purposes, joint user arrangements or the sharing of facilities between customers is not allowed.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

D. USE OF SERVICE AND FACILITIES - continued

2. Limitations and Use of Service - continued

a. Use of Customer's Service - continued

Service furnished by the Company is intended only for communications in which the customer has a direct interest. The resale of any service provided by the Company is not permitted, except as specifically authorized by the Company or as specified by the Regulatory Commission of Alaska.

b. Cancellation for Cause

The Company may, by notice in writing, without incurring any liability, either suspend or terminate the service for any of the following reasons:

- (1) Abandonment of the service.
- (2) Nonpayment of any sum due for service.
- (3) Use of foul or profane language over the service.
- (4) Making of nuisance calls.
- (5) Abuse or fraudulent use of service which includes:
  - (A) The use of service or facilities of the Company to transmit or receive messages or to give or obtain information without payment of applicable charges;

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

D. USE OF SERVICE AND FACILITIES - continued

2. Limitations and Use of Service - continued

b. Cancellation for Cause – continued

(5) Abuse or fraudulent use of service – continued

(B) The obtaining, or attempting to obtain, or assisting another to obtain telephone service, by rearranging, tampering with, or making connection to Company facilities, or through any other fraudulent means or device, with intent to avoid the payment in whole or in part, of the established charge for such service.

(C) Unauthorized resale of any service provided by the Company.

(6) Use of service in such a manner as to interfere with the service of other users.

(7) Use of service for any purpose other than as a means of communication.

(8) Use of service for unlawful purposes.

(9) Nonpayment of deposit required by the Company.

(10) Any other violation of regulations as set forth in the Company's filed tariff.

Tariff Advice No. TA110-165

Effective: January 24, 2008

Issued By: **INTERIOR TELEPHONE COMPANY, INC.**

By: \_\_\_\_\_  
Jack H Rhyner

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

D.      USE OF SERVICE AND FACILITIES - continued

2.      Limitations and Use of Service - continued

b.      Cancellation for Cause - continued

The Company may continue such suspension of service until all charges due have been paid and all violations have ceased, or terminate the service without suspension of service or following suspension of service, and disconnect and remove any Company provided equipment from the customer's premises.

c.      Use for Unlawful Purposes

Service is furnished by the Company subject to the condition that it will not be used for an unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of law, or if the Company receives other evidence that such service is being or will be so used.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

D.      USE OF SERVICE AND FACILITIES - continued

2.      Limitations and Use of Service - continued

d.      Limited Communication

The Company reserves the right to limit access to and the length of communication when necessary because of a shortage of facilities caused by emergency conditions.

E.      ESTABLISHMENT AND FURNISHING OF SERVICE

1.      Application for Service

The Company reserves the right to require applications for service to be made in writing on the Company's standard form of Application. Upon the acceptance of an application for service, all the applicable provisions in the Company's tariffs lawfully on file become the contract between the customer and the Company. Requests for additional service and requests for changes in service upon acceptance thereof by the Company become a part of the original contract, except that each item of additional service is subject to the appropriate initial contract period. Any change in rates or regulations authorized by legally constituted authorities effects a modification of all contracts for services to that extent, without further notice.

The Company reserves the right to refuse service to applicants previously having service terminated for any reason specified in the regulations of this tariff until all charges due have been paid and all violations have ceased.

It shall be the responsibility of the customer or their agents to provide all easements, information and assistance as may be required by the Company for the installation of their service. No service may be established until all easements have been provided without charge to the Company.

Tariff Advice No. TA110-165

Effective: January 24, 2008

Issued By: **INTERIOR TELEPHONE COMPANY, INC.**

By: \_\_\_\_\_  
Jack H Rhyner

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

E.      ESTABLISHMENT AND FURNISHING OF SERVICE - continued

2.      Advance Payments

Applicants for service whose credit has not been established may be required to pay, prior to the connection of service, an Advance Payment equal to the amount of the service order charge and line connection charge per access line ordered. The Advance Payment is in addition to any deposit required. The Advance Payment is credited to the customer's account and is applied towards the customer's first month's billing.

3.      Change of Billing Responsibility

Customers who wish to retain telephone numbers assigned to a given individual or business when there is a change of ownership and/or responsibility may request of the Company such numbers providing:

- a.      Both parties sign the proper form which will relinquish all privileges associated with the telephone number or numbers listed to the first party and assess responsibility for payment to the second party for all outstanding billing associated with the telephone number or numbers.
- b.      Any deposit held for the telephone number(s) will be relinquished to the new assuming party. If the new customer has not established credit with the Company an application for service will be required, an advance payment and a deposit, or an update in the current deposit, may also be required.

Tariff Advice No. TA110-165

Effective: January 24, 2008

Issued By: **INTERIOR TELEPHONE COMPANY, INC.**

By: \_\_\_\_\_  
Jack H Rhyner

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

E.      ESTABLISHMENT AND FURNISHING OF SERVICE - continued

4.      Construction Charges

The rates and charges quoted in the tariff provide for the furnishing of service and facilities where suitable plant facilities are available.

When costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in "Line Extension Services" and "Special Construction" in the General Exchange Services section of this tariff, except as otherwise specified in the Company's applicable tariff.

5.      Deposits

a.      General

The Company may require an applicant or a customer whose credit has not been established or whose credit may have become unsatisfactory to make a suitable cash deposit to be held by the Company as a guarantee of the payment of charges for service.

A customer's credit will be considered unsatisfactory upon disconnection for nonpayment, or upon the second occasion of payment delinquency in a period of twelve consecutive months.

A customer that orders additional services may be required to submit a deposit, or an additional deposit, before any new services will be connected.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

E.      ESTABLISHMENT AND FURNISHING OF SERVICE - continued

5.      Deposits - continued

b.      Amount of Deposit

Except as otherwise specified in the Company's applicable tariff, the minimum deposit for new service shall be two months' telephone billings, including toll charges as estimated by the Company.

After service has been established and experience demonstrates that the amount of the outstanding deposit is not suitable to safeguard the interests of the Company, the Company may require an adjustment of the deposit to cover the amount of service accruing for a period of two months. Failure to make a deposit within ten days after such notification will result in the suspension of service.

Service which has been disconnected for nonpayment or has collection action taken against it will not be restored until a deposit equal to two months' average telephone billings, including toll charges and all other charges owed have been paid.

Interest on customers' deposits in excess of \$100.00 for recurring monthly service will be paid at the legal rate in accordance with Alaska statutes.

5.      Deposits - continued

c.      Refund of Deposit

Deposits will be refunded against the customer's account after twelve months of prompt payment. During the twelve month period if a payment, or payments, are delinquent the deposit will be refunded twelve months after the last such occurrence.

When service is terminated, any balance of the deposit remaining after the deduction of all sums due the Company will be returned to the customer sixty days after the discontinuance of service.

No refunds under \$2.00 will be made unless requested by the customer.

d.      Deposit Not to Effect Regular Collection Practices

The fact that a deposit is held by the Company shall in no way relieve the applicant or customer from compliance with the Company's regulations as to advance payment and payment for service, nor constitute a waiver or modification of the regulations pertaining to the discontinuance of service for nonpayment of any sums due the Company for the service rendered.

6.      Minimum Contract Periods and Termination of Service

a.      Minimum Contract Periods

The minimum contract period for all services will be one (1) month except as otherwise specified in the Company's applicable tariff.

The minimum contract period begins on and includes the day of the establishment of service.

b.      Termination of Service

In the case of service for which the minimum contract period is one (1) month, the charges due are for the balance of that month.

No minimum or termination charge will apply in the event the service is terminated because of destruction or damage to property by fire or other cause beyond the control of the customer.

E.      ESTABLISHMENT AND FURNISHING OF SERVICE - continued

7.      Space and Power at the Customer's Premises

The customer is responsible for the provision and maintenance, at his expense, of all space and floor arrangements required on the customer's premises for communication facilities provided by the Company in connection with services furnished the customer by the Company.

Any power outlets and commercial power required for the operation of such facilities shall be provided by, and at the expense of, the customer. Company equipment that is dependent upon customer provided power generation shall be placed only where said power generation equipment is of a standard and reliable nature.

8.      Installation and Maintenance

The Company will undertake to install and maintain all facilities necessary to furnish basic service to applicants or customers. All ordinary expense of installation and maintenance in connection with service furnished by the Company is borne by the Company except as otherwise specified in the Company's applicable tariff.

Except where designated by law, the type of construction (direct buried, conduit, aerial or radio) is the prerogative of the Company.

GENERAL RULES AND REGULATIONS

E.        ESTABLISHMENT AND FURNISHING OF SERVICE - continued

10.       Work Performed Outside Regular Working Hours

The rates and charges specified in the Company's tariffs contemplate that all work in connection with furnishing or rearranging service be performed during regular working hours. Whenever a customer requests work which cannot be performed during the Company's regular working hours, the customer will be required to pay, in addition to the other rates and charges specified in the Company's applicable tariffs, the amount of additional costs incurred by the Company as a result of the customer's requirements.

11.       Provision and Ownership of Telephone Numbers

a.        The assignment of the telephone numbers will be made at the sole discretion of the Company. The customer has no property right to the telephone number or any other call number designation associated with services provided by the Company. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the customer, whenever the Company deems it necessary to do so in the conduct of its business. If a phone number is inadvertently assigned to two customers, the customer who held the phone number immediately prior to the second assignment of the number shall be provided the first option of retaining the number.

E. ESTABLISHMENT AND FURNISHING OF SERVICE – continued

11. Provision and Ownership of Telephone Numbers – continued

- b. Business and residential customers may make application to the Company for the provision of a special number to be designated to their service by requesting “Special Number Service.” If the Company is able to provide the special number, the charges associated with this service shall be applied.

12. Provision and Ownership of Directories

Directories are furnished by the Company to customers as an aid in the use of the service. The Company will furnish to its customers, without charge, one (1) directory per access line for the efficient use of the service.

The Company reserves the right to charge customers for additional directories or directories covering areas other than their primary directory area.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL RULES AND REGULATIONS

E. ESTABLISHMENT AND FURNISHING OF SERVICE – continued

13. Special Contracts

The rates and charges quoted in the tariffs of the Company contemplate the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company. Where equipment, facilities, or service arrangements are requested which are not provided for in the Company's applicable tariffs, rates and charges will be based on the Company's actual costs when in the judgment of the Company it is practical to provide the service requested.

A special contract for these services will be filed with the Regulatory Commission of Alaska.

14. Alterations on the Customer's Premises

The customer shall notify the Company, at least five business days in advance, whenever alterations or new construction on premises occupied by the customer necessitate changes in the Company's equipment and facilities.

When the Company is requested by the customer to install, relocate, rearrange or change outside plant facilities from one type to another, the cost of constructing the new and removing the old plant shall be borne by the customer with consent of the owner, if applicable.

GENERAL RULES AND REGULATIONS

F.      ESTABLISHMENT AND MAINTENANCE OF CREDIT

1.      Establishment of Credit

The Company is not obligated to furnish service to any individual or firm that owes for service previously rendered at the same or a different location until arrangements have been made to liquidate such previous indebtedness to the Company. Nor is the Company obligated to continue to furnish service to any individual or firm whose credit becomes, in the opinion of the Company, doubtful. In order to insure the payment of all charges due for its service, the Company may require any customer to establish and maintain his/her credit in one of the following ways:

- a.      By furnishing references acceptable to the Company.
- b.      By means of a cash deposit.
- c.      Letter of Credit/Guarantee.

GENERAL RULES AND REGULATIONS

F.      ESTABLISHMENT AND MAINTENANCE OF CREDIT – continued

2.      Discontinuance of Service for Failure to Establish or Maintain Credit

Service to a customer may be disconnected for failure to establish or maintain credit after a reasonable time, but in any case not until 10 days after written notice to the customer was mailed or delivered to his address as listed with the Company, or to the premises at which the service is rendered. Notice will be deemed given to the customer upon being posted.

3.      Unpaid Account

The Company shall not be required to provide service to an applicant who has not paid for prior service rendered by the Company in the same or different location and furnished to the same person or legal entity. The Company shall not be required to furnish service when applied for in the name of another person or legal entity, or a fictitious name or other member of the same household, for the purpose of avoiding payment of an unpaid obligation for telephone service previously furnished.

GENERAL RULES AND REGULATIONS

G. PAYMENT ARRANGEMENTS

1. Payment for Service

A customer is responsible for the payment of all access, toll, including collect toll messages which have been accepted at the customer's telephone, and other charges applicable to the customer's service, including local, state and federal taxes made in accordance with the Company's Rules and Regulations and Rate Schedules as contained in this tariff. Failure to receive a bill does not relieve the customer of the responsibility for payment in accordance with these provisions.

Charges to the customer are due and payable as follows:

- a. Regular bills will be issued on the first of the month and due within 20 days from the date they are rendered. An additional 20 days will be granted prior to termination of service by the Company.
- b. Local service, service connections, deposits, and line extensions are payable in advance.
- c. Closing bills rendered to persons discontinuing service and bills for miscellaneous services are payable upon presentation.
- d. Message toll service bills will be rendered monthly in arrears, except at the option of the Company, they may be rendered daily, weekly, or any other period in arrears. Toll charges are considered binding unless objection is received within 60 days after presentation.

GENERAL RULES AND REGULATIONS

G. PAYMENT ARRANGEMENTS - continued

1. Payment for Service - continued

- e. Surcharges such as federal excise tax, sales taxes, subscriber line charges and universal access charges imposed upon the Company by any Federal, State or local government agency may be billed to the customers of the Company. When customers are billed as herein provided, the amount will be separately stated on and added to the regular billing.
- f. The bill will be considered rendered when postmarked by a U.S. Post Office, addressed to the customer or agent at which service is or was last rendered, or to another mailing address as specified by the customer.
- g. Payment will be considered rendered when received at the business office whether by mail or delivered in person.
- h. Special bills for extremely high toll usage may be rendered daily, weekly or any other period.
- i. Payment will be considered rendered when received at the business office whether by mail or delivered in person.

2. Non-Payment of Bills

- a. Monthly bills shall be considered past due if they are not paid within 20 days of rendering or after any payment date previously established by agreement between a customer and the Company. Special bills shall be considered past due if they are not paid within 10 days of rendering.

GENERAL RULES AND REGULATIONS

G.      PAYMENT ARRANGEMENTS - continued

3.      Disputed Bills

In the event of a dispute involving a customer's bill, the customer's service shall not be disconnected for non-payment of that portion of the bill under dispute pending an investigation by the Company. If the Company determines, following such an investigation, that the service has been provided to the customer pursuant to the Company's tariff, and the Company has provided the customer with available substantiating information and the dispute remains unresolved, the Company may then disconnect the service. Upon the request of the Regulatory Commission of Alaska, telephone service will not be suspended or disconnected because of an amount involved in a complaint which is before the Commission.

4.      Dishonored Checks

The Company reserves the right to collect a \$25.00 charge for checks returned by banks. A returned check is considered evidence of non-payment and may result in immediate suspension of service without notification.

5.      Adjustment of Charges

In the adjustment of charges for over-billing or under-billing by the Company, an adjustment of the charges will be made equal to the amount of the over- or under-billing for a maximum of six (6) months.

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**BASIC EXCHANGE TELECOMMUNICATIONS RADIO SERVICE**

A. GENERAL

Basic Exchange Telecommunications Radio Service (BETRS) is a proprietary wireless loop carrier system providing basic telephone loop service comparable to that obtained with the use of conventional wireline.

BETRS is an alternative that may be applied in lieu of wireline. It provides radio coverage replacement for the local loop that interfaces with any standard central office switch on a 2-wire basis.

Each customer has a subscriber station which receives and transmits over voice channels. The subscriber station connects with the existing house wiring and supports standard telephone handsets and most other customer premises equipment.

B. REGULATIONS

1. Subject to availability of facilities and the provisions of the Company's tariffs, the Company may provide Basic Exchange Telecommunications Radio Service.
2. BETRS requires constant power to ensure service. It is the customer's responsibility to provide a suitable power source at the point designated by the Company. For the operation of BETRS equipment, a 120 volt, 60 Hz AC outlet or a 12 volt DC connection is required. It is also the customer's responsibility to provide a dry location where the temperature is kept above 32 degrees Fahrenheit.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**BASIC EXCHANGE TELECOMMUNICATIONS RADIO SERVICE - continued**

B. REGULATIONS – continued

3.      BETRS requires an acceptable signal receive level to operate.
  
4.      If a tower structure, mast or other special construction is required for installation to achieve an acceptable signal level, it is the responsibility of the customer to provide such fixtures in compliance with Company specifications. If the required tower structure, mast or special construction is provided by the Company, it will be billed to the customer on a time and materials basis.
  
5.      The Company will provide and maintain the necessary subscriber station equipment and antennas normally provided for the provision of BETRS service, provided that such equipment is located at a premises which has maintained road access or is accessible by 4-wheel drive truck.

Company provided equipment at locations that are not accessible by road or 4-wheel drive truck may require the customer to pay additional charges for installation and maintenance. Such charges may include time and materials and special equipment or transportation fees as required.

Upon initiation of BETRS service request by an applicant, the Company will perform a site survey at the applicant's physical location. A technician will go to the proposed location of the remote antenna to confirm if adequate signal is available to provide BETRS. This may require the customer to pay additional charges for the site survey that include time and transportation fees as required.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**BUSINESS EXCHANGE ACCESS SERVICE**

**SIMPLE AND COMPLEX SERVICE**

A.      GENERAL

Business exchange access service is provided to customers within the local exchange area through facilities owned and maintained by the Company in accordance with established standards.

B.      REGULATIONS

1.      Business exchange access service is provided to customers whose actual or obvious use is for business purposes.
2.      Directory service for subscribers to business services is provided under the rules and regulations established for these services in the Company's tariff.
3.      In addition to the rates and charges provided in the Rate Schedule, the customer shall bear all special charges related to business exchange access service such as directory assistance, maintenance of service, and toll.
4.      The business exchange access service rates are in addition to all other applicable charges as outlined in the Company's tariff.
5.      Business service is "complex" when the customer subscribes to two or more exchange access lines at a single business or reseller location. Business complex service includes line hunting features. Business Complex lines may be DID trunks, PBX trunks, or Key system trunks.

a.      Multi-Line Hunt Group

Assigned to one directory number to receive incoming calls for a group of lines. Hunting starts from the pilot number and hunts in a sequential manner to the last line in the group for an idle line. If none is found, the caller will receive a busy signal.

Tariff Advice No. TA110-165      Effective: January 24, 2008

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**BUSINESS EXCHANGE ACCESS SERVICE – continued**

**SIMPLE AND COMPLEX SERVICE – continued**

B.      REGULATIONS - continued

b.      Distributed Line Hunt Group

Distributed Line Hunt allows rotation of the order in which incoming calls are processed. All incoming calls go first to the listed directory number. The feature will then route a call to the subsequent line that last received an incoming call. If this line is busy, distributed line hunt will continue to hunt until it reaches an idle line or the hunt starting point resulting in a busy signal.

c.      Distributed Number Hunt Group

A service which provides group hunting from the first member to the last member when the listed number is dialed. Each member has a unique directory number that can be directly dialed. If other than the main listed number is dialed, hunting will commence from that number to the last member of the group.

d.      Line Hunt Overflow to a Directory Number Feature

Line Hunt Overflow is added to Multi-Line Hunt or Distributed Line Hunt groups to allow calls to continue to another specified directory number on the customer's premise if all lines in the hunt group are busy.

e.      Line Hunt Overflow to a Route Feature

Line Hunt Overflow to a Route is added to Multi-Line Hunt or Distributed Line Hunt groups to allow a call to be routed to another location or city when all lines in the hunt group are busy.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**BUSINESS EXCHANGE ACCESS SERVICE – continued**

**SIMPLE AND COMPLEX SERVICE – continued**

B.      REGULATIONS - continued

f.      Circular Hunt Feature

A service which provides for circular hunting of a hunt group from any member number dialed through the whole hunt group.

g.      Direct Inward Dialing Trunks

Direct Inward Dialing Service (DID) provides the central office equipment necessary for in-dialing from the exchange and toll networks directly to stations associated with a PBX. Also see the section titled Direct Inward Dialing Service (DID) for additional regulations on this service.

GENERAL EXCHANGE SERVICES

CUSTOM CALLING SERVICES

A. GENERAL

Custom Calling Services are optional telephone service arrangements which provide enhanced services. The features specified herein apply to residential and business customers where facilities and conditions permit within the exchange area and are subject to compatibility with other optional features

Features:

- Anonymous Call Rejection
- Automatic Call Return
- Automatic Redial
- Call Blocking – per call
- Call Blocking – per line
- Call Forwarding
  - Busy
  - Fixed
  - No Answer
  - Remote
  - Remote Access
  - Variable
- Call Tracing
- Call Waiting/Cancel Call Waiting
- Caller ID
- Selective Call Acceptance
- Selective Call Forwarding
- Selective Call Rejection
- Simultaneous Ring
- Smart Ring
- Speed Dialing
  - 8 number list
  - 30 number list
- Three Way Calling
- VIP Alert
- Wakeup Call

Restriction services are optional telephone service arrangements which prevent access to the toll and directory networks. These services are available only on local individual residential and business lines where facilities and conditions permit within the exchange area.

Features:	Directory Assistance Restriction	No Incoming Collect/3 <sup>rd</sup> Party
	Originating Toll Service Restriction	900 Toll Service Deny
	Restricted Sent Paid	900 Toll Service Restore

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**CUSTOM CALLING SERVICES – continued**

**B.      REGULATIONS**

1.      Anonymous Call Rejection

Anonymous call rejection service automatically rejects calls to the called party's (customer) number when the calling party uses call blocking. The calling party shall hear a telephone company recorded announcement. This feature can be enabled or disabled by dialing the appropriate access code.

2.      Automatic Call Return

- a.      Automatic call return allows the calling party (customer) to direct the central office to place a call to the telephone number of the last incoming call, whether or not it was answered. The customer can return a call without knowing the telephone number of the calling party. The feature is activated by dialing the feature access code.
- b.      If the number being called is busy, automatic call return shall alert the customer with a special ring when the number is idle. When the customer lifts the handset, the call will be automatically dialed.
- c.      This feature is not available on operator handled calls. The central office will call return all numbers, except blocked calls, including long distance numbers, where technically available. The customer is responsible for toll charges incurred as a result of automatic call return.

3.      Automatic Redial

- a.      Automatic redial service allows the calling party (customer) to direct the central office to recall the telephone number of the last outgoing call. The central office will redial the telephone number whether or not the original call was answered, unanswered or busy. The feature is activated by dialing the feature access code.
  
- b.      If the number the customer is calling back is busy, call setup will be attempted as soon as both parties are idle. Automatic redial service shall alert the customer with a special ring when the customer's line and the line being called back are both idle. When the customer lifts the handset, the call will be automatically dialed.

B. REGULATIONS - continued

4. Call Blocking, Per Call and Per Line

- a. Call blocking allows the calling party (customer) to control whether or not their directory number is to be delivered to the called party when making an outgoing call. Two types of call blocking are available: call blocking-per call and call blocking-per line.
- b. Call blocking-per call is automatically included with the provision of telephone service for all residential and business customers. Before placing an outgoing call, a customer may designate their number as private and prevent delivery to a called party using Caller ID.

On a per call basis, the customer dials the call blocking-per call activation code which prevents their telephone number from being displayed.

- c. Call blocking-per line will be provided to customers who request this service. Call blocking-per line prevents the delivery of the customer's telephone number on a permanent basis and will always display as "Private Caller" on a Caller ID display telephone set or adjunct unit.

Call blocking-per line replaces call blocking-per call. Call blocking-per line is operational on a continuous basis and can only be deactivated by the customer on a per call basis by dialing the call blocking-per line deactivation code prior to dialing the call.

5.      Call Forwarding

Call Forward Busy automatically routes any incoming call to a predetermined number when the primary number called is in use.

Fixed Call Forwarding automatically transfers all incoming calls through the central office to another specified number. It is programmed by the Company but turned on and off by the Customer. When the number is dialed the call is automatically transferred to another specified number.

Call Forward No Answer transfers all incoming calls that are not answered after a predetermined number of rings to another specified number.

Remote Call Forwarding automatically transfers all incoming calls through the central office to another specified number. It is programmed by the Company and is permanently in place until de-programmed by the Company, as requested by the Customer. When the number is dialed, the call is automatically transferred to another specified number.

Remote Access Call Forwarding allows customers to activate or deactivate basic call forwarding or to change the forward-to destination when they are at a remote location. Remote Access Call Forwarding can be accessed from any touchtone telephone simply by dialing the access code and a personal identification number.

Variable Call Forwarding allows a customer to redirect all incoming calls to another telephone number during the period of time this feature is activated. The customer activates and cancels call forwarding as required.

GENERAL EXCHANGE SERVICES

**CUSTOM CALLING SERVICES - continued**

B.      REGULATIONS - continued

6.      Call Tracing

This service allows the customer to immediately and automatically trace the last incoming call received from a local service area in which CLASS features are offered. Upon the customer's request, the trace information will be provided to law enforcement agencies by the Company, but will not be released directly to the Customer. To initiate the call trace, the Customer must contact the Company within ten (10) days of the incident. Call Tracing Service performs the function of recording information but in no way identifies the person(s) actually placing the call(s). By accepting the service, the Customer agrees that the Company shall not be liable for damages due to an inability to trace the call(s).

7.      Call Waiting/Cancel Call Waiting

This service alerts a customer talking on the telephone that a call is waiting. The customer can "hold" the first call while the second is answered. The customer can alternate between calls. Cancel call waiting allows the customer to turn off call waiting during the duration of a call in which the customer does not wish to be interrupted.

Caller ID on Call Waiting

This service allows a customer to view the number and or name of an incoming Call Waiting call before answering. This service requires the customer subscribe to Call Waiting and Caller ID custom calling features and use a telephone set or a separate display unit capable of recognizing and displaying the Call Waiting calling telephone number sent from the central office.

GENERAL EXCHANGE SERVICES

**CUSTOM CALLING SERVICES - continued**

B.      REGULATIONS - continued

8.      Caller ID

- a.      Caller ID allows the called party (customer) to view the directory name, where available, and telephone number of an incoming call giving the customer the opportunity to decide whether to answer the call. If the calling party has designated a call as private (pursuant to Call Blocking), the directory name, where available, and calling number will not be displayed. If the incoming call is handled by an operator or is from outside the local calling area, the calling party's name, where available, and telephone number may not be displayed. Long distance calls from outside the Company's service area or miscellaneous calls (including cellular) may be shown on the display device as "Out of Area" or "Unknown Caller." Blocked calls may be shown as "Private Caller" depending on customer premise equipment.
- b.      Caller ID requires a telephone set or a separate display unit capable of recognizing and displaying the calling party's name, where available, and telephone number sent from the central office.
- c.      Caller ID is not available on operator handled calls. If the incoming call originates from a multi-line hunt group, the directory name, where available, and telephone number information transmitted will be associated with the main number in the hunt group, unless facilities permit the lines within the group to be telephone number identified.
- d.      Customers of Caller ID may not, without permission of the calling party, publicize or disclose to third parties telephone number information obtained through these services. Failure to comply with this regulation may subject the customer to termination of these services.

**CUSTOM CALLING SERVICES - continued**

B.      REGULATIONS - continued

9.      Selective Call Acceptance

Selective call acceptance allows the called party (customer) to create a list of directory numbers of which calls from only these numbers are to be received. When this feature is assigned and enabled and the calling directory number matches an entry in the called party's designated list, normal call termination occurs. All other calls are intercepted and routed to a telephone company recorded announcement. This feature can be modified by dialing the feature access code and appropriate options. The maximum size of the selective call acceptance list shall be 12 numbers.

10.     Selective Call Forwarding

Selective call forwarding allows the called party (customer) to create a list of directory numbers that are to be forwarded when an incoming call is attempted. When this feature is assigned and enabled and the calling directory number matches an entry in the customer's designated list, the calling party is routed to the number designated by the customer. The customer must have standard call forwarding to the line for this feature to be applicable. If the calling directory number does not match an entry in the list, normal termination occurs. This feature can be modified by dialing the feature access code and appropriate options. The maximum size of the selective call forwarding list shall be 12 numbers.

GENERAL EXCHANGE SERVICES

CUSTOM CALLING SERVICES - continued

B. REGULATIONS - continued

11. Selective Call Rejection

Selective call rejection allows the called party (customer) to create a list of directory numbers that are not permitted to terminate on this line when an incoming call is attempted. When selective call rejection is assigned and enabled and the calling number matches an entry in the called party's designated list, the call is rejected and routed to a telephone company recorded announcement. If the calling number does not match an entry in the list, normal call termination occurs. This feature can be modified by dialing the feature access code and appropriate options. The maximum size of the selective call rejection list shall be 12 numbers.

12. Smart Ring

Smart Ring is a service that provides for a second telephone number on a line. The second number has a distinctive ring from the main number when called. All calls are billed to the main number.

13. Speed Dialing

This provides for the calling of any telephone number by dialing a 1- or 2-digit code. Speed calling is available in either 8- or 30-number capacity. Only one type of speed calling may be provided on each line.

14. Three-Way Calling

Enables a customer to add a third party, local or long distance, to an established connection without operator assistance.

Three-Way Calling with Call Transfer

Enables a customer to add a third party, local or long distance, to an established connection without operator assistance and perform a disconnect at any time following completion of dialing. The customer will be billed for long distance calls transferred by that customer and for any charges incurred after the customer leaves the connection.

**CUSTOM CALLING SERVICES - continued**

B.      REGULATIONS - continued

15.      VIP Alert

VIP Alert allows the called party (customer) to set up a list of directory numbers from which calls should ring differently than other calls. When this feature is assigned to a line and enabled, and the calling party matches an entry in the called party's designated list, the customer receives distinctive ringing if on-hook or distinctive call waiting tone if in the middle of a call. If the calling party's number is not on the designated list, normal ringing/call waiting will occur. If the customer does not have standard call waiting to the line, then this feature will only provide distinctive ringing. The feature is activated by dialing the feature access code. The maximum size of the distinctive ringing/call waiting list shall be 12 numbers.

16.      Wakeup Call

Allows a customer to program the wakeup call for the desired wakeup time. A wakeup call may be made for one time only or on a repetitive basis.

B.      REGULATIONS - continued

21.      900 Toll Service Deny

At the request of the customer, the Company will restrict the customer line from accessing any 900 toll services. Non-recurring service charges do not apply when a customer requests 900 Toll Deny.

The customer will have access to 911 Emergency Services.

22.      900 Toll Service Restore

At the request of the customer, the Company will reconnect 900 toll service. A feature activation charge will apply for 900 Toll Service Restore.

23.      Simultaneous Ring

Simultaneous ring automatically routes any incoming call to a predetermined user-defined group that consists of the primary directory number called and up to four additional directory numbers. The phone that goes off-hook first receives the call.

The primary directory number must be a local access line purchased from the ITC local tariff. Group number(s) are selected by the customer from telephone numbers in the North American Numbering Plan, subject to minor technical limitations. The customer can add, change, and delete numbers on an as-needed basis. The customer also controls the activation or deactivation of the feature. In the active mode, all lines in the group will be notified of an incoming call. Deactivation of the feature will result in only notification to the primary directory number. Long distance charges, if applicable will be billed to the primary directory number.

GENERAL EXCHANGE SERVICES

**DIGITAL SUBSCRIBER SERVICE (DSS)**

A.      GENERAL

Digital Subscriber Service (DSS) provides digital exchange service for business customers. DSS includes a DS1 facility, common equipment, local exchange switching and flat usage trunks for access to the public switched telephone network. Each DS1 facility utilizes 24 channels which are configured with business complex exchange access services as described below.

B.      DEFINITIONS AND APPLICATION OF SERVICES

The DS1 facility and common equipment includes the digital DS1 facility, transmitting at a rate of 1.544 Mbps, and the common equipment necessary to interface each of the 24 channels into the central office switch.

Basic Trunking

One-Way Trunk

A one-way trunk which only allows traffic originating or terminating from the customer premise equipment to the central office switch.

Two-Way Trunk

A trunk which allows for traffic to be transmitted from either the central office or the customer.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**DIGITAL SUBSCRIBER SERVICE (DSS) - continued**

**B.      DEFINITIONS AND APPLICATION OF SERVICES - continued**

Advanced Trunking

    One-Way Trunk with DID

        One-way trunk with direct inward dialing (DID) feature. Requires a DID trunk circuit termination.

    Two-Way Trunk with DID

        Two-way trunk with DID feature. Requires a DID trunk circuit termination.

**C.      REGULATIONS**

1.      DSS is provided subject to the availability of central office facilities.
2.      The minimum service period for the DS1 facility and common equipment is one month.
3.      Each DS1 facility enables the customer to add up to a maximum of 24 trunks per DS1 facility. The customer is billed for the actual number and types of trunks in service on each DS1 facility. The customer must subscribe to a minimum of 2 trunks, per trunk group, per facility.
4.      Regulations, rates and charges, as described elsewhere in this tariff apply as appropriate.
5.      When Outward WATS or 800 service terminates on a DS1 facility, the Outward WATS and 800 service access lines are classified as basic trunks for the application of DS1 facility.

GENERAL EXCHANGE SERVICES

**DIRECT INWARD DIALING SERVICE (DID)**

A.      GENERAL

Direct Inward Dialing Service (DID) provides the central office equipment necessary for in-dialing from the exchange and toll networks directly to stations associated with a PBX.

B.      REGULATIONS

1.      The service is furnished subject to facility and telephone number availability and compatibility of PBX facilities.
2.      The service is only available to switching systems installed on customer's premises located within the area served by the central office providing the DID service.
3.      The minimum number of DID trunks per customer is one (1). The customer must subscribe to a number of trunks sufficient to ensure service standards as determined by the Company.
4.      DID service in blocks of 10 numbers will be offered at the option of the Company where the facilities and operating conditions permit. Rates and charges applicable to such smaller groups of used and/or reserved numbers will be a direct proportion of the rates and charges for the first 100 or additional 100 station numbers.

GENERAL EXCHANGE SERVICES

**DIRECTORY ASSISTANCE SERVICE**

A.      GENERAL

Directory Assistance Service provides access to the directory assistance bureau containing telephone names and numbers.

A database of directory listings is available to directory assistance providers in accordance with 47CFR 51.217. The company shall ensure that the database contains the same directory information that is available to it's own directory assistance customers.

B.      REGULATIONS

1.      Each residential and business line will be allowed two free calls per billing period.
2.      Each call to directory assistance will be limited to two requests for telephone numbers.
3.      Call allowances are not transferable between separate accounts of the same customer.
4.      Charges will not be billed on a third number basis.
5.      All calls will be itemized on the customer's monthly bill.
6.      Credit will not be given for any unused portion of the prior monthly allowance. Credit will not be given for requested telephone numbers that are not found in the directory.

**NON-PUBLISHED AND NON-LISTED NUMBER SERVICE**

A.      GENERAL

Non-Published Number Service may be requested by a customer who does not desire to have his name and telephone number listed in the directory or have his number made known to other telephone users.

Non-Listed Number Service may be requested by a customer whose name and telephone number are not listed in the directory but can be obtained by contacting the directory assistance bureau.

B.      REGULATIONS

1.      Non-Published and Non-Listed Number Service is offered to business and residential exchange access service customers at the respective monthly rates provided in the Rate Schedule.
2.      Non-Published and Non-Listed Number Service shall be paid for until the end of the directory period during which the non-published or non-listed number does not appear, unless the customer's service is disconnected. Non-Published Service may be changed to Non-Listed Service at the customer's request.

GENERAL EXCHANGE SERVICES

ENHANCED LIFELINE SERVICE

A. GENERAL

Enhanced Lifeline Service is a reduction in basic local service charges for residential service, available only to qualifying low income customers living on tribal lands. Qualifying customers pay reduced charges for a primary residential line as a result of the application of payments from the state and the interstate universal service funds and a waiver of the qualifying customer's end user subscriber line charge. All customers in the Company's service area are deemed to live on tribal lands.

B. REGULATIONS

1. Enhanced Lifeline Service will be offered to any requesting customer meeting the following criteria in (a) and /or (b) below:
  - a. The customer lives in a household with income at or below 135 percent of the current official Federal Poverty Income Guidelines published annually in the Federal Register by the United States Department of Health and Human Services. For purposes of applying the poverty guideline, the term "family unit" means all persons who occupy a housing unit, whether they are related to each other or not.
  - b. The customer participates in one of the following programs:
    - Supplemental Security Income (SSI)
    - Food Stamps
    - Medicaid
    - Federal Public Housing Assistance
    - Low Income Home Energy Assistance
    - Bureau of Indian Affairs general assistance
    - Tribally administered Temporary Assistance for Needy Families
    - Head Start Programs (only those meeting its income qualifying standard)
    - National School Lunch Program (free meals program only)
    - Alaska Temporary Assistance Program
    - Alaska Adult Public Assistance Program
    - VA Disability Pension (N)
    - Child Care Assistance Program - PASS I, PASS II, PASS III |
    - WIC - Women, Infants & Children Program |
    - Alaska State Housing Corporation Programs (N)

- d.      The premises at which the residential service is requested is the customer's principal place of residence.
  - e.      Enhanced Lifeline Service is available on the primary residential line only. The residential premises shall consist of that portion of an individual house or building or one apartment or flat occupied by a single family or individual(s) functioning as one domestic establishment.
2.      Enhanced Lifeline Service shall not be disconnected for non-payment of toll charges; however, the Company may disconnect access to interexchange services should the customer not pay incurred toll charges.
- 3      If the customer chooses "toll blocking" the Company will not charge a service deposit.
4.      Enhanced Lifeline Service includes the following:
- Single party, voice grade access to the public switched network;
  - Access to emergency service;
  - Access to operator service;
  - Access to interexchange service, unless toll blocking is chosen;
  - Access to directory assistance, unless directory assistance restriction is chosen; and,
  - Toll blocking, if requested.

GENERAL EXCHANGE SERVICES

**ENHANCED SERVICE PROVIDERS (ESPs) SERVICES**

A. GENERAL

Enhanced Service Providers (ESPs) Services are central office capabilities which can be used by Enhanced Service Providers (ESPs) who, in turn, provide services such as voice messaging services to their clients. Subscribers to any of the options require trunk line services which are obtained from existing general tariff offerings.

DEFINITIONS

Enhanced Service Provider (ESP) - A customer of the Company who provides Enhanced Services, which are defined as services, offered over Local Exchange Carrier, i.e., Utility, exchange and transmission facilities used in intraLATA communications, which employ computer processing applications that act on the format, content, code, protocol or similar aspects of the subscriber's transmitted information; provide the subscriber additional, different or restructured information or involve subscriber interaction with stored information. (A customer of an ESP is, in turn and with respect to this tariff, a "client".)

Message Waiting Indication – Audible - Sends an identifiable tone (such as a stutter dial tone), to an ESP's client whenever messages for the client are waiting in storage. (This service must be used in conjunction with forwarded call information.)

Data Link - Provides the capability to deliver forwarded call information to an ESP (requires subscription to forwarded call information – Intraoffice.) A Data Link is required for each central office serving area per system. Data Link service is limited to the provisioning of voice messaging by voice message providers.

Call Forward Busy-Line / No Answer - A permanently activated service which automatically redirects calls placed to a customer's or a customer's (such as an ESP's) client's telephone number to another telephone number, if the caller encounters either a no-answer condition after a specified number of rings or a normal busy line condition.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**ENHANCED SERVICE PROVIDERS (ESPs) SERVICES - continued**

**B.      REGULATIONS**

Customers are responsible for the payment of rates and charges associated with establishing, continuing and discontinuing or disconnecting services ordered on behalf of themselves and their clients.

The Company will not provide instructions for operating services of customers. Instructing clients is the responsibility of the customer.

The Company is not required to notify a customer (such as an ESP) when the Company disconnects a service subscribed to by another customer who is also the customer's (ESP's) client.

The Company will not disconnect or discontinue the tariffed services subscribed to by a customer who is also a client of another customer (such as an ESP) because of non-payment or charges billed to the other customer. The Company will discontinue or disconnect services billed directly to a customer for non-payment in accordance with the rules of the Company's tariffs. The Company is not responsible for harm or damages to a customer or its clients resulting from services disconnected in accordance with the tariff rules, terms and conditions.

GENERAL EXCHANGE SERVICES

**ENHANCED SERVICE PROVIDERS (ESPs) SERVICES - continued**

B.      REGULATIONS - continued

Each customer and each customer's client shall indemnify, defend, protect and hold harmless the Company against any and all losses, claims, suits, demands, causes of action, damages, costs or liability in law or in equity or every kind and nature whatsoever, including attorney's fees, arising directly or indirectly from the services provided in accordance with this tariff or in connection therewith, including but not limited to any loss, damage, expense or liability resulting from any infringement or claim of infringement or any patent, trademark or copyright, or resulting from any claim of libel or slander.

Each customer, not the Company, has the responsibility and control over the content, quality and characteristics of the services provided and conversations conducted over its equipment. The Company is not responsible for quality of, defects in, or content of the services which a customer provides its clients. The customer is responsible for complying with the law, rules and regulations of governmental agencies, and with the terms and conditions of the Company's tariffs.

A customer may neither use the Company's name, signs, symbols or markings nor implicate, implicitly or explicitly, the Company in any other way as a participant, promoter, or co-promoter, in sales media or other publicity of services provided wholly by the ESP or jointly by the ESP and the Company for each advertisement, announcement, or other information media to be released.

The customer must subscribe to a number of trunk lines sufficient to insure service standards as determined by the Company.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**ENHANCED SERVICE PROVIDERS (ESPs) SERVICES - continued**

**B.      REGULATIONS - continued**

Each customer, such as an ESP, ordering services from the Company on behalf of its customers (the customer's client) is responsible for payment of all rates and charges associated with the services ordered. Should a client dispute the customer's authority, the customer will be held responsible by the Company, whether or not an agency agreement (any agreement between customers and clients) exists.

The Non-recurring Charges (NRC), specified in this tariff under the Rate Schedule will be billed to the customer for each client whenever services associated with a client's line and subscribed to by the customer on behalf of the customer's client are established. One NRC will apply when more than one of the following services are ordered at the same time for the same customer on the same line.

- Message Waiting Indication
- Call Forwarding Busy/No Answer

The customer is responsible for placing orders for disconnecting or discontinuing ESP services subscribed to on behalf of clients. Should a customer's client's telephone service be discontinued or disconnected for any reason, the Company will continue billing the customer for ESP Services subscribed to on behalf of the client until the customer requests that the service be disconnected or discontinued.

Each customer and each client, directly or indirectly subscribing to a call forwarding service, is responsible for the payment of applicable calling charges for each completed call forwarded from its line to another line.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**ENHANCED SERVICE PROVIDERS (ESPs) SERVICES - continued**

B.      REGULATIONS - continued

Each call forward service and each message waiting indication service must be associated with a specific individual line or with a specific telephone trunk-line telephone number from which calls are forwarded and to which calls are forwarded and to which is subscribed by a customer or a customer's client.

A customer must specify which services are to be associated with each client's telephone service.

Each customer providing voice message service must subscribe to business complex service for access to the Company's switched network. The network connection will be used to pass messages to and from the ESP's equipment and the customer's equipment must be compatible.

Non-published information may be provided only in conformance with a non-disclosure agreement prohibiting the display, storage, or disclosure of non-published information. This agreement of non-disclosure must be renewed on an annual basis.

Services are limited in their offering to where facilities are available.

GENERAL EXCHANGE SERVICES

EXPANDED LINKUP ASSISTANCE

A.      GENERAL

Expanded Linkup Assistance is a program for qualifying low income customers which includes a reduction in the Company's customary charge for service connection for a single residential line connection at a customer's principal place of residence, and a deferred schedule of payment of the charges assessed for commencing service, for which the customer does not pay interest. Expanded Linkup will provide a reduction to any standard charges imposed on qualifying low-income individuals as a condition of initiating service, including both line extension and initial connection charges. Expanded Linkup support provides for:

- A 100% reduction, up to \$100 of a qualifying subscriber's initial connection charges      (C)
- Total maximum support amount of \$100 per qualifying low income subscriber.      (C)

The supported services under this section do not include charges assessed for facilities or equipment that fall on the customer's side of the demarcation point, i.e. customer premises equipment and inside wiring charges.

B.      REGULATIONS

1.      Expanded Linkup will be offered to any requesting applicant meeting all the criteria as listed for Enhanced Lifeline Services.

GENERAL EXCHANGE SERVICES

**FACILITY RESERVATION SERVICE**

A.      GENERAL

Facility Reservation Service is available to customers with residential, business, and special access service while temporarily absent from their premises for a period of not less than one month and not to exceed nine months.

Facility Reservation Service provides a 50% discount applicable to the residential and business exchange rates as set forth in the Rate Schedule.

B.      REGULATIONS

1.      The customer must have had service at full rate for at least one month prior to the application for Facility Reservation Service and all bills previously rendered must have been paid in full.
2.      Incoming-only service or intercept service, where technically feasible, to a recording stating the number has been temporarily disconnected, will be furnished during the period of facility reservation.
3.      A non-recurring service order charge will apply for the restoration to full services as set forth in the Rate Schedule.      (C)
4.      Complete service will be restored without notice from the customer not later than 5 P.M. on the last day of the reservation period unless that day falls on a weekend or holiday, in which case service will be restored on the last prior working day.

GENERAL EXCHANGE SERVICES

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) – PRIMARY RATE INTERFACE (PRI)**

A. GENERAL

Integrated Services Digital Network (ISDN) is a digital architecture that provides an integrated voice/data capability of the end-user loop facility.

These are central office based service arrangements which may provide local exchange access, interexchange access, business group communications and feature packages. Services offered in accordance with this service are provided exclusively from central offices equipped with digital facilities. The availability of service and ability to provide services may vary among serving central offices.

The Company may change telecommunications services, equipment, operations, or procedures while remaining consistent with the Federal Communications Commission's Rules and Regulations. If changes cause a customer's equipment or communications system to become incompatible with services or if changes cause terminal equipment to require modification or become less effective, the Company shall not be responsible. Customers will be given notice, in writing, of forthcoming changes to network services that might affect terminal equipment or private communications systems.

The ISDN capability is provided through a public switched network digital switch, a DS-1 transport link, and customer premises equipment (CPE) supplied by customer.

Temporary disconnections for facility reservations of ISDN services are not permitted.

GENERAL EXCHANGE SERVICES

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) – PRIMARY RATE INTERFACE (PRI) - continued**

A. GENERAL - continued

Primary Rate Interface (PRI) ISDN service is a business class, exchange service, which includes network access and which is provided as an alternative to trunk-line services.

PRI allows customers to connect suitably equipped ISDN customer premises equipment (CPE) to the central office switch using PRI interfaces (packages), over a digital transport facility (DS1). The customer-provided equipment used in conjunction with services provided in accordance with this offering must conform with the technical specifications of the Company.

This interface supports circuit switched voice. These service arrangements conform to standards described in Bellcore Technical Recommendation or Generic Requirements.

The connection of a 8-24 channel digital transport to the central office switch will provide one PRI interface. Customers may subscribe to PRI Optional Features. (C)

PRI is for customers such as Internet Service Providers (ISPs) and ISDN PBX users who need larger access to the network. PRI is presented to the customer over a 4-wire interface with all channels, including the D channel working at 64 Kbps.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) – PRIMARY RATE INTERFACE (PRI) - continued**

B. REGULATIONS

1. PRI service is available where facilities and operating conditions permit. The features of this service may vary by serving central office switch.
2. The DS1 facility will be provided with the ISDN-PRI Service. (C)
3. One PRI service configuration is required for each PRI transport DS-1.
4. At the time a customer subscribes to PRI service, the customer must specify the minimum and maximum number of channels to be used for exchange service, for access services and for data services and must provide any other information needed for the Company to provide service.
5. PRI will not be provided as a foreign exchange service.
6. PRI provides seven (7) up to twenty-three (23) 64 kbps B channels and one 64 kbps D channel. The B channels are bearer channels that carry digitized customer traffic (voice, data, etc.). The D channel is a signaling channel used to control and route B channel traffic. (C)
7. PRI service can be purchased as Basic PRI service or Fractional PRI service. (N)

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) – PRIMARY RATE INTERFACE (PRI) - continued**

B.      REGULATIONS - continued

8.      Call by call access allows a trunk (channel) group to have multiple features assigned, where a simulated facility group (SFG) limits the maximum number of a particular call type (DID, DOD, OUTWATS, INWATS) that can be made simultaneously. Any member in a call-by-call feature trunk group can be used for any call-by-call feature subscribed to by the group. (C)
9.      All SFG assignments and investments are included in this feature. (C)

C.      OPTIONAL FEATURES

1.      Calling Name and Number Display
- Requires suitably equipped ISDN switching and terminal equipment and allows the network to pass calling number and name information.
2.      Release Link Trunking
- Provides the ability for the switch to release PRI trunks to and from a PBX that are no longer required as a result of a call that has been forwarded for transferred. At that time, the call is handled from the host central office while the PRI trunks are freed to accept new calls.

GENERAL EXCHANGE SERVICES

INTEREXCHANGE SERVICES

A.      GENERAL

Interior Telephone Company, Inc. concurs in the rules, regulations and rates governing interstate communications as set forth under Tariff Number 5 filed by the National Exchange Carriers Association (NECA) with the Federal Communication Commission.

Interior Telephone Company, Inc. concurs in the rules, regulations and rates governing intrastate foreign exchange and private line service as set forth in the Special Access Section of the Alaska Exchange Carriers Association, Inc. Tariff Number 999 filed with the Regulatory Commission of Alaska.

B.      REGULATIONS

The Company extends its concurrence to any and all changes which may be made to these tariffs by NECA or the Alaska Exchange Carriers Association, Inc.

The Company hereby expressly reserves the right to cancel and make void this statement of concurrence at any time as it appears that such cancellation is in the best interest of Interior Telephone Company subject to such Orders as it applies to such cancellation.

GENERAL EXCHANGE SERVICES

LINE EXTENSION SERVICES

A. GENERAL

Line Extension Services are provided in connection with establishing service to a customer beyond the Company's existing facilities and are for abnormally long plant extensions to prevent unreasonable burdening of the general body of existing customers. Line Extension Services remain dominant services under 3 AAC 53.220 (c)(1).

B. REGULATIONS

1. The construction charges associated with plant extension are non-recurring charges to the customer, as provided in the Rate Schedule, to cover all or a portion of the costs involved in establishing the service. The charges are applicable with all classes of service and are in addition to all other applicable charges in accordance with this tariff.
2. Agreements for the extension of outside plant facilities shall be made in writing. All restrictions, cost estimates, terms and conditions of payment and estimated completion date shall be contained in the Contract.
3. Deposits or advance payments covering the construction charges shall be required at the time application for service is made and are based on the estimated cost of the construction required. Such payments are not interest bearing.
4. Except where designated by law, the type of construction is the prerogative of the Company.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**LINE EXTENSION SERVICES - continued**

B.      REGULATIONS - continued

5.      The Company will construct at its expense a maximum of ¼ mile, route measurement, of outside plant facilities per applicant. This does not include an additional maximum of 250 feet of construction on private property per applicant. This is referred to as the line extension allowance. The Company will expend a maximum of \$10,000 to extend its plant facilities ¼ mile. The applicant is responsible for the remainder of the construction costs above this amount.
  
6.      When the Company provides a line extension build-out, whether constructed at its own expense or with the help of the subscriber, applicants will be required to execute a service termination agreement in an amount equal to twelve (12) months exchange service.
  
7.      When the proposed construction over private property is selected by the Company in lieu of routing on public highways, such construction will be treated as being on public highways. All necessary easements and/or right-of-ways will be granted by the property owner to the Company.
  
8.      Distances mentioned in this schedule are route distances.
  
9.      Line extension charges may be paid in a lump sum or, when mutually agreeable, in equal monthly installments for a term not to exceed two years.

GENERAL EXCHANGE SERVICES

**LINE EXTENSION SERVICES - continued**

B.      REGULATIONS - continued

10.      When a charge is applicable on private property, the customer may elect to undertake the construction in accordance with construction standards of the Company in lieu of the applicable charges. In all cases the ownership of the facilities shall be entirely vested in the Company.
  
11.      Measurement of the line facilities are route distances. The routing of line extensions will be determined by the Company.
  
12.      When a customer disconnects his service, no refund is made of the line extension charge. Those customers making monthly payments are required to pay an amount equal to the total of the payments for the unexpired life of the contract.
  
13.      When a customer disconnects service or moves and service is established for a new applicant at the same location, the new applicant may assume the line extension charge contract provided there is no lapse in payments. The Company will sign a new contract with the applicant and release the existing customer from payment of their line extension.
  
14.      Any adjustment in prepaid line extension charges is a matter of negotiation between the original customer and the new applicant.

**LINE EXTENSION SERVICES - continued**

B.     REGULATIONS - continued

15.     Multiple Applicants

- a.     All applicants are grouped in a single project when there is no more than ¼ mile of construction between successive applicants. Separate projects are established whenever the construction between any two successive applicants exceeds ¼ mile. Applicant(s) located along the line extension route may be included in the group of applicant(s).
  
- b.     Applicant(s) at any premises receives only one single line extension allowance regardless of the number of services ordered at the premise.
  
- c.     Applicants are divided into two groups. The first group includes all applicants whose collective allowance equals or exceeds the construction required to serve them. No charge is made to such applicants. The second group includes all remaining applicants on the project. The incremental cost of the project for the second group is divided equally among all applicants in the second group.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**NON-RECURRING CHARGES**

A. GENERAL

Non-Recurring Service Charges are one-time charges associated with work performed by the Company in connection with the provision of service for a customer.

B. REGULATIONS

1. Non-recurring charges are in addition to but not in place of labor charges and/or construction charges which are found in other sections of this tariff.
2. Charges are applied individually according to the components of work required.
3. All charges are applicable to work performed within the Company's normal work schedule. When a customer requests work to be performed on an expedited basis or at a time other than during normal work schedules, a premium charge will then apply, equal to twice the normal charge. In addition, when the request requires special arrangements, actual time and expense charges may also apply.

4.      Application of Charges

a.      Service Order Charge – Residential and Simple Business

A Service Order Charge applies to receiving, recording, transmitting, and processing information, including initial arrangements for directory service, necessary to execute the customer's request for service from the Company. The rates are specific to residential and simple business services and are provided in the Rate Schedule.

b.      Service Order Charge – Business Complex

A Service Order Charge applies to receiving, recording, transmitting, and processing information, including initial arrangements for directory service, necessary to execute the customer's request for service from the Company. The rates are specific to Business Complex services and Special Access and are provided in the Rate Schedule.

c.      Directory Change Charge

This charge applies when a customer requests a change in their established directory listing. A service order charge does not apply when making directory changes.

d.      Feature Activation Charge

This charge applies to the activation or changing of custom calling features individually or as a package. A service order charge does not apply when adding calling features.

4.      Application of Charges – continued

e.      Line Connection Charge

Applies to the installation or changing of connections required to provide or change services as requested by a service order. Also included is work required for off premises extensions, special access lines and public access lines. The Line Connection Charge applies to services performed up to the demarcation point.

f.      Restricted Send Paid Charge

A restricted sent paid (RSP) data entry charge applies to the activation of the restricted sent paid toll restriction calling feature.

5.      Non-Recurring Service Charges do not apply to:

- a.      Company initiated work;
- b.      the complete termination of service requested by the customer;
- c.      work performed at the prior location when the service is requested to be established at another location;
- d.      changes in the bill-mailing address;
- e.      the cancellation of service orders, on which the Company has incurred no expense;
- f.      900 toll deny service (initial request only).

**SPECIAL ACCESS SERVICE**

A.      GENERAL

Non-recurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service.) The types of non-recurring charges that apply for special local access service are: installation of service, installation of optional features and functions, and service rearrangements.

B.      REGULATIONS

1.      Installation of Service

Non-recurring charges apply to each service installed. The non-recurring charges for the installation of service are set for each channel type as a non-recurring charge for the channel termination. Non-recurring installation charges are as set forth in the Rate Schedule.

2.      Installation of Optional Features and Functions

When optional features and functions are installed coincident with the initial installation of service, no separate non-recurring charge is applicable. When optional features and functions are installed or changed subsequent to the installation of service, a non-recurring order charge will apply per order based on the type of circuit.

GENERAL EXCHANGE SERVICES

**OFF-PREMISE EXTENSIONS**

A.      GENERAL

Extension stations may be furnished in connection with all classes and grades of local service except Public Access Line Service (PAL).

The maximum number of extension stations will be limited to the number that will not interfere with satisfactory operation of the telephone line.

B.      REGULATIONS

Off-premises extensions may be located on the premises of another customer for answering purposes only, provided the other customer has his own separate service at the same location.

The charge applies when the primary station and its extension are located on non-continuous property. The charge applies to additional wire or cable pairs required to control the extension.

GENERAL EXCHANGE SERVICES

PUBLIC ACCESS LINE SERVICE

A. GENERAL

Public Access Line (PAL) service is provided for the connection of pay telephones. PAL service will provide local dial tone service to any telephone instrument which has been made available to the public on a fee-per-call basis. The telephone instrument may be coin-operated, activated by calling collect, using a calling card or some other means.

B. REGULATIONS

1. These additional functionalities can be added to the PAL service upon request:

a. Answer Supervision Service – Answer Supervision is the line side functionality that provides an electrical signal to the calling end of a switched telephone connection when the called line goes off-hook. It will be provided for use with PAL Service as specified in this tariff to assist in determining when billing for a specific call should commence.

b. Central Office Coin Supervision - Central Office Coin Supervision is a service provided in conjunction with a Public Access Line (PAL). Coin Supervision allows a pay station provider (PSP) to control the voice path to the payphone to collect monies and check for stuck coins.

- i. Central Office Coin Supervision is provided at the request of a PSP who uses dumb pay telephones.
- ii. Central Office Coin Supervision is only provided in conjunction with a PAL.
- iii. The PSP must designate an operator service provider.
- iv. The Company shall not be liable for a shortage of coins deposited and/or collected from the pay telephone.

c. Toll Control – Toll Control services provided by the Company that restrict access to the toll network, 411 Local Directory Assistance, or the Casual Feature activation system. Attempted calls from PAL lines equipped with Toll Control will be routed to a Company provided intercept announcement, tone, or a long distance operator. Provision of this service does not alleviate PSP responsibility for completed toll calls. Access to emergency 911 service and 800 type services are not restricted in conjunction with Toll Control.

**PUBLIC ACCESS LINE SERVICE - continued**

B.      REGULATIONS – continued

2.      In order to secure a Public Access Line (PAL) under this section, the pay station provider shall furnish proof of its operating authority from the Commission to the Company. (L)
3.      Public Access Lines have the following network access: local, 411, 611, 911, 10xxx, 950, zero plus/zero minus and international. Public Access Lines will not have access to 900, pay-per-call service.
4.      Pay telephones connected to PAL service are the responsibility of the customer. Pay telephone equipment must be in compliance with Federal Communications Commission regulations 47 C.F.R. Part 68. Utility-provided equipment is grandfathered.
5.      The pay station provider (PSP) shall be responsible for the installation, operation, and maintenance of any pay telephones used in connection with this service.
6.      Directory assistance charges will be passed-through from the Company to the PSP.
7.      The telephone must carry labeling which identifies the pay station provider and the person to call for reporting problems; the price of a call within the local calling area; and, any toll or local call restrictions or other charges attached to the use of the pay telephone.
8.      One pay telephone may be installed per line. Extension telephones are not permitted.
9.      Public Access Lines will be terminated on a Company-provided network interface device (NID). The Company will provide grounding at the NID.
10.     The PSP is responsible for payment of all toll calls, directory assistance, and operator assistance charges which originate or terminate from the PAL.

GENERAL EXCHANGE SERVICES

**SCHOOLS AND LIBRARIES**

A. GENERAL

Universal Service discounts will be applied to all services provided for in Section 254 of the Telecommunications Act of 1996 that are provided under the jurisdiction of this tariff.

B. REGULATIONS

Each year, the applicant must supply evidence to the Company the appropriate federal universal service funds are available by demonstrating the federal universal service fund administrator has committed the necessary funds.

The Company will discontinue the applicant's universal service discounts and bill the undiscounted rate, if the applicant fails to approve the payment of universal service support to the Company.

In order to receive universal service discounts, schools and libraries must meet the eligibility requirements set forth in Section 47 CFR § 54.401.

Telecommunications services and network capacity provided to schools and libraries under this section may not be sold, resold, or otherwise transferred by such recipient in consideration for money or any other thing of value.

Any services supported by universal service discounts must be used for educational purposes only.

Schools and libraries receiving discounted service must maintain the appropriate records to assist in future audits.

GENERAL EXCHANGE SERVICES

**SPECIAL ACCESS SERVICE**

A. GENERAL

Special Access Service is telecommunication service over a dedicated channel for communication purposes of the customer and authorized users between specified locations within the local exchange area.

The regulations for special access are applicable when used in connection with burglar alarms, metering channels, tie lines, off premises PBX stations, off premises key stations, signaling services, data services and other special access services for business customers.

Special Access Service specifications shall be in accordance with FCC standards as reflected in the National Exchange Carriers Association (NECA) tariff, FCC #5, Chapter 7.

B. REGULATIONS

1. Special Access Service channels are provided by copper, fiber, radio, carrier or a combination thereof at the option of the Company. The Company's service responsibility is limited to that furnished by its own facilities.

**SPECIAL ACCESS SERVICE - continued**

B.      REGULATIONS - continued

2.      Special Access Service facilities will be furnished for the specified purposes requested by the customer in a manner determined by the Company. A channel, circuit or facility furnished by the Company may only be used for the specific purpose intended and may not be used for a combination of services.
  
3.      Special Access Service facilities are suitably terminated at a point of demarcation at the customer's premises. The Company shall not be responsible for the installation, operation or maintenance of any customer provided premises equipment, wiring or customer provided premises communication systems.
  
4.      All customer-provided apparatus connected to special access service and any electrical current over such lines must be in accordance with the specifications approved for such use by the Company. The Company reserves the right to specify apparatus which it deems necessary for the protection of its employees, property, service and the public.

**VOICE GRADE SERVICE**

A.      GENERAL

Voice grade channels have an approximate bandwidth of 300-3000 Hz furnished for voice frequency. These channels are not suitable for the transmission of direct current pulses unless specifically requested by the customer.

The monthly recurring and installation charges, where applicable, are set forth in the Rate Schedule.

B.      REGULATIONS

1.      Basic Channel Description

A voice grade channel is a channel which provides voice frequency transmission capability in the nominal frequency range of 300 to 3000 Hz and may be terminated two-wire or four-wire. Voice grade channels are provided between a customer designated premises and a Company hub or hubs.

Voice grade special access service is typically used for voice and voiceband data applications.

GENERAL EXCHANGE SERVICES

**SPECIAL ACCESS SERVICE - continued**

**VOICE GRADE SERVICE - continued**

B.      REGULATIONS - continued

2.      Voice grade service is provided on the following basis:

a.      Channel Termination

Channel Termination is the facility between the central office or central distribution point and the point of termination at the customer's or authorized user's premises. One channel termination is required for each service point. Two-point service connects two customer designated premises, either on a directly connected basis without passing through a hub, or through a hub, where multiplexing functions are performed.

b.      Multi-Point Service

This service connects three or more customer designated premises through one or more Company hubs. The channel between hubs (i.e., bridging locations) on a multi-point service is a mid-link.

3.      Optional features technical specifications are delineated in Bellcore Technical Reference TR-NWT-000335. Conditioning of voiceband facilities provides the transmission parameters to meet the values specified in the NECA tariff, FCC #5, Chapter 7.

a.      Conditioning

Conditioning provides more specific transmission characteristics for Voice Grade services. For two-point service, the parameters apply to each service as measured end-to-end. For multi-point service, the parameters apply as measured on each mid-link or as measured on each end-link. C-Type conditioning and Data Capability may be combined on the same service. The following types of conditioning are offered:

(1)      C - Type Conditioning

C-Type Conditioning is provided for the additional control of attenuation distortion and envelope delay distortion on data services.

(2)      Data Capability (D Conditioning)

Data Capability provides transmission characteristics suitable for data communications. Specifically Data Capability provides for the control of signal to C - notched noise ratio and inter-modulation distortion. It is available for point to point or multi-point services.

**DIGITAL DATA SERVICE**

A.      GENERAL

Digital data channels are provided for duplex 4-wire transmission of synchronous serial data at rates of 2.4, 4.8, 9.6, 19.2, 56.0 and 64.0 Kbps, as facilities are available.

The monthly recurring and installation charges, where applicable, are set forth in the Rate Schedule.

B.      REGULATIONS

1.      Basic Channel Description

A digital data channel is a channel for duplex four-wire transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, 19.2, 56.0 and 64.0 Kbps. The actual bit rate is a function of the channel interface selected by the customer. The channel provides a synchronous service with timing provided by the Company through its facilities to the customer in the received bit stream. Digital data channels are provided as either hubbed or non-hubbed service between customer designated premises or a Company hub or hubs.

The customer will provide the channel service unit-type equipment or other network channel terminating equipment associated with the digital data channel at the customer premises.

**HIGH CAPACITY SERVICE**

A.      GENERAL

High capacity channels are for transmission of 1.544 Mbps isochronous serial data. Synchronization requirement must be specified by the customer.

The monthly recurring and installation charges, where applicable, are set forth in the Rate Schedule.

B.      REGULATIONS

1.      Basic Channel Description

A high capacity channel is a channel for the transmission of nominal 64.0 Kbps or 1.544 Mbps isochronous serial data. The actual bit rate is a function of the channel interface selected by the customer. High capacity channels are provided between customer designated premises and a Company hub or hubs.

The customer will provide the network channel terminating equipment associated with the high capacity channel at the customer's premises.

A channel with technical specifications package HC1 will be capable of an error-free second performance of 98.75% over a continuous 24 hour period as measured at the 1.544 Mbps rate through CSU equivalent which is designed, manufactured, and maintained to conform with the specifications contained in Telcordia Generic Requirement GR-54-CORE.

2.      High capacity service is provided on the following basis:

GENERAL EXCHANGE SERVICES

**SPECIAL CONSTRUCTION**

A. GENERAL

1. Construction charges are for unusual construction costs other than normal in order to provide telephone service. These non-recurring charges apply under certain conditions, as set forth in the regulations, to cover all or a portion of the costs involved in the establishment of service and are in addition to the rates for the class of service furnished and any other charges that may apply in accordance with this tariff. Special Construction services remain dominant services under 3 AAC 53.220 (c)(2).
2. When the revenue to be derived from the service is not sufficient to warrant the Company assuming the unusual costs, the customer shall be required to pay all or a portion of the costs. The application of the charges rests solely with the Company.

B. REGULATIONS

1. Except as otherwise provided herein, the rules and regulations in this section contemplate usual construction, i.e., the type of construction the Company would provide for the area and for the quantity and class of service involved if the decision rested solely with it, or where required by law.

**SPECIAL CONSTRUCTION - continued**

B.      REGULATIONS - continued

2.      When a charge is applicable for construction on private property, the customer may undertake, where in the opinion of the Company it is practicable for him to do so, such construction in whole or in part, in lieu of the construction charges which apply to that portion. In all cases of construction by the customer, the material furnished and the method of construction are subject to the approval of the Company.
  
3.      If underground conduit construction is used to the property line of the customer by requirement of law or at the customer's request, the customer will be required to furnish, install and maintain the conduit on his property in accordance with the Company's specifications. If direct burial construction is used to the property line of the customer by requirement of law or at customer's request, the customer will be required to excavate and backfill the trench on his property, or be charged the actual cost of such work done by the Company. The customer shall replace the lawn, shrubbery, pavement, sidewalks or other items damaged in the process of construction or maintenance of his property.

Where aerial outside plant facilities are to be used, the customer will provide any poles or other supporting structures required to complete the construction. Such poles and supporting structures must comply with National Electric Safety Codes (NESC) and company standards. These poles and supporting structures will be the property of the property owner or other public utility and the facilities will be the property of the Company.

4.      The Company is not liable for any defacement of or damage to the customer's premises resulting from furnishing of facilities, or from the installation or removal thereof when such defacement or damage is not the result of the negligence of the Company or its agents.
  
5.      When it is necessary to relocate buried wire or cable or underground conduit and cable at the customer's request, the customer will be charged the actual labor and material cost, less salvage.
  
6.      Where underground construction will not be within a utility corridor or other designated right-of-way and where the Company requires adequate rights for the construction, operation and maintenance of such construction, the customer, or tract owner or developer in the case of real estate subdivisions, will provide the Company with easements, deed restrictions or other appropriate covenants for these rights. The customer will be required to pay the entire costs involved in securing such right-of-way.

**SPECIAL CONTRACTS**

A.      GENERAL

When a customer requests equipment, facilities, or service arrangements which are not provided for in the Company's applicable tariff, a special contract will be arranged between the customer and the Company.

B.      REGULATIONS

1.      Special contracts shall provide for appropriate monthly rates, installation charges and basic termination charges equivalent to the total cost of furnishing the equipment, facilities or arrangements.
  
2.      The costs for the special contract shall include:
  - a.      maintenance,
  - b.      operation,
  - c.      depreciation on the installed costs of any facilities provided, based on the useful service life of the facilities with an appropriate allowance for net salvage,
  - d.      administration and taxes on the basis of a reasonable average charge for these items,
  - e.      any other specific items of expense associated with the particular situation, and
  - f.      an amount based on the installed cost of any facilities provided, for approved rate of return and contingencies.

GENERAL EXCHANGE SERVICES

**TEMPORARY SERVICE OR SPECULATIVE PROJECTS**

A.      GENERAL

Subdivision, housing projects, multi-family dwellings and mobile home parks having five or more individual units and commercial or industrial developments may be considered speculative projects.

B.      REGULATIONS

The Company will, if no undue hardship to its existing customers will result there from, furnish temporary service or service to speculative projects under the following conditions:

1.      The applicant for such service will be required to pay to the Company, in advance or otherwise as the Company may elect, the net cost of installing and removing any facilities necessary in connection with the furnishing of such service by the Company.
2.      Each applicant may be required to deposit with the Company a sum of money equal to the estimated amount of the Company's bill for such service or to otherwise secure, in a manner satisfactory to the Company, the payment of any bills which may accrue by reason of such service to be furnished or supplied.
3.      Nothing in this Regulation shall be construed as limiting or in any way affecting the right of the Company to collect from the applicant any other or additional sum of money which may become due and payable to the Company from the applicant by reason of the service furnished.
4.      If a customer maintains for 36 consecutive months a service installation which was originally established on a temporary or speculative basis and if his business or operation at the end of that time has proven its permanency to the satisfaction of the Company, there will be refunded to the customer an amount equal to the charge above, less the normal Line Extension Charge which would have been applicable at the time the customer's service was installed. If the business has not proven its permanency at the end of 36 months, the refund provision will no longer apply.

GENERAL EXCHANGE SERVICES

**WIRELESS INTERCONNECTION SERVICE**

A. GENERAL

Wireless Interconnection Service is applicable to the connection of a Wireless Carrier's (WC) facilities to the Company's exchange network for the purpose of completing cellular calls and mobile calls. This tariff is applicable only for those customers where no Interconnection Agreement is negotiated, in compliance with FCC Order 96-98, Sections 251 and 252.

The service specified herein applies only where facilities and conditions permit within the exchange area.

This service provides for establishing connections between wire line customers of the Company and customers served by an authorized WC utilizing combinations of dedicated facilities subscribed to by the WC, and the Company's public switch network.

Each service consists of a trunk or line side connection between a WC's switch and the Company's switching office. The Company will establish a trunk group(s) for the WC at the switching offices where WC interconnection is provided.

The Company offers two basic interconnection services. Type 1 and Type 2B, which are all physical interconnections between the WC and the Company. These interconnections allow for the interchange of traffic between the WC equipment and the public switched network.

B. REGULATIONS

1. Telephone Numbers and Telephone Number Routing Equipment and Services. NXX's and blocks of telephone numbers administered by the Company for the WC's use may be rearranged or changed by the Company to meet the reasonable code conservation policies recognized by the industry.

Subject to availability, the Company may facilitate the assignment of NXXs and/or numbers to other WC for its exclusive use upon the WC's request. Time frames for completing NXX code orders on a national basis shall be the same as the industry norm over which the Company has no control.. New NXX code orders will be placed in the national network within one hundred five (105) days of assignment by the North American Numbering Plan (NANP) Administrator.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**WIRELESS INTERCONNECTION SERVICE - continued**

B. REGULATIONS – continued

1. Telephone Numbers and Telephone Number Routing Equipment and Services - continued

When the WC orders other than the exclusive use of an NXX, the WC shall be assigned telephone numbers in initial and incremental blocks of one hundred (100) numbers each. In order to reserve specific numbers, the WC shall furnish to the Company, its number requirements for planning purposes but shall not be required to pay for numbers administered in advance of their assignment by the Company. Within the number blocks assigned, the assignment and use of such numbers by the WC for its subscribers for the WC's authorized services, shall be the responsibility of the WC subject to coordination with the Company for efficient operation with the Company facilities.. They Company may at its option , prior to assignment, recall the numbers. The WC shall provide periodic forecasts of number and facility requirement upon request by the Company (maximum of two (2) times per year). The forecast shall be updated annually or as mutually agreed.

Central Office prefixes used with telephone numbers furnished to the WC, other than when the WC is administered a Dedicated NXX, may be used by the Company in providing its subscriber services and for other purposes.

2. Provision of Service.

Subject to availability of facilities and the reasonable requirements of the Company for its telecommunications services, the Company will provide to the WC, upon request, those facilities and arrangements which are necessary to establish the physical connections and Interexchange of traffic provided for herein. Such interconnections shall be in accordance with the provisions set forth herein. Technical specifications associated with these services are described in Telcordia Document Number GR-145.

In the event the Company plans to implement any change in its technical specifications or improvement in the design, installation, operation and

2. Provision of Service – continued

maintenance of the Company's circuits, equipment and other facilities which might have an impact on the operations of the WC, then the Company shall provide the WC with prompt written notice of such proposed change or improvement, which notice shall be not less than three(3) months prior to the proposed implementation date provided. However, if the change or improvement is both planned for and scheduled to be implemented in less than three (3) months, then notice shall be provided to the WC immediately after the Company formulates its plan to implement such change or improvement.

If facilities are not available or where the WC's individual requirements are such that the Company must provide special equipment or arrangements, special routing, special gauge of wire, unusual type of circuit facilities, or more circuit facilities than could be utilized in the near future for telephone service discontinued by the WC, special construction charges may apply.

The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights of way and facilities with a reasonable expense, and to provide for the installation of those facilities for the furnishing and maintenance of that service.

In case a shortage of facilities exists at an time either for temporary or protracted periods, the establishment of telephone exchange service takes precedence over the furnishing of any other service or facility.

B.      REGULATIONS – continued

3. Use of Service and Facilities

The connecting circuits provided by the Company shall be used only for the handling of traffic originating or terminating on the WC's system in connection with the WC's authorized services. Such circuits may, however, be used occasional or incidentally for incoming calls concerning administrative matters related to the WC's authorized services.

The connection and inter-exchange of traffic as set forth herein does not constitute a joint undertaking with the WC for the furnishing of any service. The Company shall be responsible only for the installation, operation and maintenance of its facilities. Company facilities are not represented as adapted to the use of other than Company provided equipment or services.

The WC has proprietary right in the Company's central office (NXX) assignment. The Company may make such changes in the designation as, in its judgment, the requirements of the service may demand, pursuant to the provisions of the North American Number Plan. The Company will provide adequate notice to the WC if such a change of NXX is required. Such notice will be provided wherever possible, not less than 60 days in advance of NXX code changes.

4. Liability of the Company and the WC

There shall be no liability of a party for indirect or consequential damages. Each party agrees to reimburse the other party for damages to premises or equipment resulting from a party's negligence in the installation, maintenance or interconnection to or removal of facilities, services or arrangements. Each party represents that its system is constructed in accordance with all applicable laws, orders, rules and regulations and in accordance with all applicable technical standards and specifications. Each party shall indemnify and hold the other harmless from any and all claims which arise out of the interconnections provided under this agreement, unless the claim arises out of the negligent or

wrongful conduct of the other party.

5. Interruption of Service

When use of the channels, interconnection types of arrangements furnished by the Company in accordance with this Agreement is interrupted due to trouble in such channels, interconnection types of arrangements, and such interruption is not caused by: (1) the gross negligence or willful misconduct of the WC or its customer or (2) the fault of facilities or equipment provided by the WC or its customer, the WC shall, upon request, be allowed a credit which shall be in an amount equal to the pro rata monthly charges to be paid to the Company by the WC, specified in the Rate Schedule for the period which the interconnection affected by the interruption is out of service.

All credit for interruption shall begin from the time the Company becomes first aware of the interruption. No credit shall be allowed for a total amount of less than one hundred dollars (\$100.00) per interruption. A credit shall not be applicable for any period during which the WC fails to afford access to the facilities furnished by the Company for the purpose of investigating and clearing troubles.

6. Termination of Service

The date when the facilities and arrangements furnished herein shall be placed into service shall be mutually agreed upon by the Company and the WC. If service is not established by such date or in the event the WC ceases to engage in the business of providing service, either party may terminate the service on thirty days' notice. In such cases, payment for facilities or arrangements provided for costs incurred, as set forth following may be applicable.

**WIRELESS INTERCONNECTION SERVICE – continued**

B.      REGULATIONS – continued

6. Termination of Service – continued

The service shall immediately terminate upon the suspension, revocation, or termination by other means of the WC's authority to provide such services over its system.

The service may be terminated by the Company upon less than thirty days' notice to the WC for failure to pay the Company on the dates and times specified, or in the amount specified for the facilities and service furnished.

Upon termination of the service, the monthly charges payable shall be prorated to the date of termination provided that the facility or arrangement for which such charge is levied has been in service for more than one month.

In the event that facilities or arrangements are terminated prior to initiating service to the public, or that the WC cancels an order for a facility or arrangement prior to placing it in service and the Company has incurred costs in connection with the facility or arrangement to be provided, the WC shall reimburse the Company the full charges for any applicable nonrecurring charges.

7. Testing and Maintenance

The Company and the WC each may make reasonable tests and inspections of their facilities and may, upon notice to and coordination with the other, temporarily interrupt the facilities being tested or inspected, so long as impairment or restriction of the operation of facilities is minimized.

The Company is solely responsible for the maintenance of facilities provided by the Company. This includes the Company provided wiring, cable and other facilities up to the point of connection, provided that the facility or arrangement for which such charge is levied has been in service for more than one month.

GENERAL EXCHANGE SERVICES

TRANSPARENT LAN SERVICE (TLS)

A. GENERAL

Transparent LAN Service (TLS) is a 1 Mbps through 17 Mbps transport service for the interconnection of Ethernet Local Area Networks (LANs). TLS will be provided on a point-to-point or multipoint basis.

TLS serves as an LAN extension by providing a virtual private circuit that utilizes telephone company facilities. The service is bidirectional, providing high capacity service over private virtual circuits. Customers must subscribe to an Ethernet Port connection as a data link.

The electrical signals provided by TLS at the network interface meet IEEE 802.3 requirements. At the central office, the network management information is used to maintain network performance and integrity.

The Company may change telecommunications services, equipment, operations, or procedures while remaining consistent with the Federal Communications Commission's Rules and Regulations. If changes cause a customer's equipment or communications system to become incompatible with services or if changes cause terminal equipment to require modification or become less effective, the Company shall not be responsible. Customers will be given notice, in writing, of forthcoming changes to network services that might affect terminal equipment or private communications systems.

Temporary disconnections for facility reservations of TLS is not permitted.

SERVICE ELEMENTS

Port Connection – A port connection provides the link from a customer's terminal equipment to the Company's network supporting TLS. A port connection includes a network interface and the related circuit.

Line Loop Extender - Customers located further than 12,000 feet from the central office may require a line loop extender. An additional extender may be required per additional 12,000 feet.

GENERAL EXCHANGE SERVICES

**TRANSPARENT LAN SERVICE (TLS) - continued**

**B.      REGULATIONS**

1. When transport occurs between and within central offices to connect a customer location, customers must purchase an Ethernet Connection port at each customer location. The number of ports in a multi-point arrangement is limited by the technological capabilities of the network.
2. Equipment space furnished by the customer under the terms in Section II D.1 will be secured by the Company. This space must be accessible exclusively to the Company, as if the Company were the lessee.
3. TLS complies with Ethernet standards prescribed under IEEE 802.3. Maximum utilization will be typical for Ethernet LAN and may not achieve the full bandwidth rating of the stated service.
4. Equipment interoperability cannot be guaranteed and may vary by manufacturer. In addition, there may be limitations on some proprietary protocols.
5. TLS can only be provided in the Seward/Moose Pass exchange where facilities and equipment are available. Where possible, service will be provided over existing company facilities. Where suitable facilities are not available. It may be necessary to construct such facilities. Additional charges may be assessed pursuant to the Special Construction sheet 531. These charges are in addition to the TLS rate elements shown in sheets 537-541.

**INTERIOR TELEPHONE COMPANY, INC.**

GENERAL EXCHANGE SERVICES

**TRANSPARENT LAN SERVICE (TLS) - continued**

C. RATE REGULATIONS

2. A subsequent order to add any ports to an existing TLS network must be for a fixed period of one, two, or three years, or for the remainder of the customer's existing fixed period service agreement. The minimum service period for additional TLS is 12 months.
3. Monthly TLS connection port charges may vary depending upon bandwidth purchased. Ports are priced at the rate for the total number of ports purchased for the term of the agreement. For example, if a customer purchases three 1mbps ports and two 3mbps ports, the customer is purchasing a total of five ports. The rates applied are three 1 Mbps and two 3 Mbps rates at the 5 port level. Customers with 10 or more ports shall pay the 10 port rate.
4. If a fixed period agreement is terminated prior to the end of the period, the customer is responsible for reimbursing the Company the difference between the rates actually charged and the rates that would have been charged, had the actual period been the original service period, plus a 10% finance charge, compounded annually. For example, if a customer agrees to a three-year term and cancels service after one year, the Company will charge the customer the difference between the three year rate and the one year rate for one year, plus the 10% finance charge.
5. If the Company elects to substitute a customer's TLS to a mutually agreed upon service provided by the Company, then the customer will not be subject to the termination provisions as outlined above.

RATE SCHEDULE

**ALASKA UNIVERSAL SERVICE FUND SURCHARGE**

A. APPLICABILITY

The Alaska Universal Service Fund (AUSF) Surcharge is a line item surcharge on intrastate end-user billings to provide for payment to the Alaska Universal Service Fund. The Alaska Universal Service Fund provides:

1. Financial assistance, known as lifeline support, to qualifying local exchange telephone companies so that the bills of qualifying low income customers may be reduced; and
2. Financial assistance known as dial equipment minutes (DEM) weighting to local exchange telephone companies of less than fifty-thousand (50,000) access lines that qualify for assistance under the requirements set forth by the Commission at 3 AAC 48.430; and
3. Financial assistance, known as Public Interest Pay Telephones, to qualifying local exchange telephone companies so that a pay telephone is available that would not otherwise exist as a result of the operation of a competitive market place.
4. Such other purposes as may be designated by the Commission by regulation.

B. RATES

The company concurs in the AUSF surcharge percentage set forth in the currently effective tariff of the Alaska Universal Service Administrative Company. A copy of the tariff of the Alaska Universal Service Fund Administrative Company is available for public inspection during normal business hours at 12350 Industry Way, Suite 200, Anchorage, Alaska 99515 or on the Alaska Universal Service Administrative Company's web site at <http://www.ausac.org>.

**DIGITAL SUBSCRIBER SERVICE (DSS)**

A. APPLICABILITY

1. The rates and terms specified herein apply to business customers where facilities and conditions permit.
2. A terminating trunk is a one-way trunk which allows only traffic from the central office to be transmitted to the customer's CPE.
3. An originating trunk is a one-way trunk which allows only traffic originating in the customer's CPE to be transmitted to the central office switch.
4. A two-way trunk is a trunk which allows for traffic to be transmitted from either the central office or the customer's equipment.
5. A terminating trunk with direct inward dialing (DID) feature requires a DID trunk circuit termination.
6. A two-way trunk with DID requires a DID trunk circuit termination.
7. Initial service order provision charges are to establish a digital access for a DS-1 facility and the first digital trunk. Additional trunks are billed a per trunk non-recurring charge.
8. The non-recurring charge is assessed for changes to existing service in the DS1 trunk group.
9. Digital subscriber service trunks are provided over high-capacity (DS1) digital circuits.

RATE SCHEDULE

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) – PRIMARY RATE INTERFACE (PRI)**

A.     APPLICABILITY

The rates and terms specified herein apply to all classes of service within the exchange areas as defined on the maps files as part of this tariff.

There are two types of rates and charges. They are monthly rates and non-recurring charges. The rates and charges are described below. The minimum billing period for PRI service is one month.

Non-recurring charges are one-time charges which apply to specific work activity, i.e., new install charges or changes to an existing service. The type of additional non-recurring charges that will apply for PRI are engineering costs or central office translations time incurred when any customization is made to a PRI arrangement. Non-recurring charges apply to the following: initial installation, installation of additional PRI in the same arrangement as the initial PRI, digital subscriber service (DSS) conversion to PRI using the same facilities, and moves of the PRI to a different central office are considered a new installation.

The charges for these services are in addition to all other applicable rates and charges filed in this tariff

Intrastate discounts shall be available only after January 1, 1998, and only if the discounts are solely funded through the federal universal service program. Actual intrastate discounts may be lower than shown if federal funding is insufficient to cover the full discount. Details regarding the federal program and qualification for federal funding are found at 47 CFR, Part 54.

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

RATE SCHEDULE

**TRANSPARENT LAN SERVICE (TLS)**

A. APPLICABILITY

1. The rates and terms specified herein apply to all classes of service within the Seward/Moose Pass exchange area as defined on the maps filed as part of this tariff.
2. The initial order for TLS must be for a fixed service period of one, two, or three years. At the end of the initial service period, the customer has 30 days in which to select an additional term commitment for any of the service periods specified, or may elect the month-to-month option. If the customer does not sign a term commitment by the end of the 30 day period, the customer will automatically be charged the month-to-month rate.
3. A subsequent order to add any ports to an existing TLS network must be for a fixed period of one, two, or three years, or for the remainder of the customer's existing fixed period service agreement. The minimum service period for additional TLS is 12 months.
4. Monthly TLS connection port charges may vary depending upon bandwidth purchased. Ports are priced at the rate for the total number of ports purchased for the term of the agreement. For example, if a customer purchases three 1mbps ports and two 3mbps ports, the customer is purchasing a total of five ports. The rates applied are three 1 Mbps and two 3 Mbps rates at the 5 port level. Customers with 10 or more ports shall pay the 10 port rate.
5. If a fixed period agreement is terminated prior to the end of the period, the customer is responsible for reimbursing the Company the difference between the rates actually charged and the rates that would have been charged, had the actual period been the original service period, plus a 10% finance charge, compounded annually. For example, if a customer agrees to a three-year term and cancels service after one year, the Company will charge the customer the difference between the three year rate and the one year rate for one year, plus the 10% finance charge.

Title: CEO

**INTERIOR TELEPHONE COMPANY, INC.**

RATE SCHEDULE

**TRANSPARENT LAN SERVICE (TLS) - continued**

A. APPLICABILITY - continued

6. If the Company elects to substitute a customer's TLS to a mutually agreed upon service provided by the Company, then the customer will not be subject to the termination provisions as outlined above.
7. If the customer reduces either the number of ports, or total bandwidth, below 70% of their initial fixed period service agreement, the terminated ports will be considered a termination of the fixed period service agreement and reimbursement will be due the Company pursuant to A.4. above on the discontinued ports or bandwidth. In service port(s) will be re-rated based on the total number of remaining ports.
8. If a customer increased the number of ports after executing the initial term of service agreement, they have two options.  
  
Sign a fixed term agreement for the additional ports; or  
  
Request that the new ports be added to an existing fixed period agreement based on the total number of ports in service.
9. Rates are prospective only when re-rating of fixed term agreements occur because of adding ports, deleting ports, increasing bandwidth, decreasing bandwidth or extending fixed term agreements..

B. RATES

	Non-Recurring Charge
Port Connection per port	\$663.00
Port Change Charge per port	\$414.00
Line Loop Extender Install, first per location	\$497.00

**LOCAL SAVINGS PLANS**

Ring-Up Savings Plan – continued

Ring-Up Savings Plan Customers will receive a credit on their local service account for each full month of the commitment period. The credit is applied to the monthly recurring tariff rate for the Business Exchange Access Service found at Sheet No. 1505 of this tariff and applies to voice services before any taxes, regulatory surcharges and nonrecurring fees.

Restrictions

A customer must not switch any portion of their local service to another provider, block service or discontinue their service during the period covered by their term of service commitment. A customer who has subscribed to the Ring-Up Savings Plan but who discontinues service before expiration of agreed upon term must pay the Company the difference between the rates charged, and the rates that the customer would have been charged, had the actual period been the original service period. For example if a customer agrees to a five-year term and cancels after three years, the Company will charge the customer the difference between the five year rate and the three year rate for a three year termination amount equal to all discounted amounts received and applied to their account under this plan

If the Customer cancels their term of service commitment before installation of service, the Customer shall pay those reasonable costs incurred by the Company through the date of termination.

The customer may discontinue a term of service commitment prior to the expiration of the applicable term without liability when notice of the cancellation is received before the due date of the order for their term of service commitment; or In the event discontinuance of service occurs when a customer is terminated by the Company for non-payment; or when the customer notifies the Company that the business is no longer doing business within the Company's Serving Area.
