

**INTERIOR TELEPHONE COMPANY
UTILITY SERVICE REVISION EFFECTIVE: July 1, 2020**

LOCAL SERVICE - ALL EXCHANGES

ITC gives notice that it has filed a revision to its Transparent LAN Service (TLS) service. ITC adds increased bandwidth capacity while streamlining its TLS offering throughout the exchanges in the ITC service area. TLS service is a transport service for the interconnection of ethernet local area networks. The changes to TLS are similar to those offered in the Interstate tariff offering for Ethernet Transport Service up to 1 Gbps with the addition of a 15 Mbps and a 25 Mbps offering.

The rates are based on capacity, length of contract and the number of ports. ITC also proposes the availability of an additional contract term of 5 years.

This notice does not list all the revisions. Existing customers of ITC Local TLS service will be notified by TelAlaska Marketing and Sales staff. The full Rate Schedule including Terms and Conditions of Local TLS is available on ITC's website

UTILITY SURCHARGE RATE CHANGE EFFECTIVE: May 16, 2020**

Pursuant to Regulatory Commission of Alaska Docket U-20-018 Order Number 1, the rate for Telecommunications Relay Service surcharge, referred to on subscriber bills as the Universal Access Surcharge is changed for Local service. The new monthly rate for residential and business customers is \$0.09 per line

Any questions or inquiries regarding any of these revisions should be addressed to Robert Dunn at (907) 563-2003.

As a result of changes in Alaska law governing telecommunications services, most local and intrastate telecommunications services offered by TelAlaska, Inc. and its affiliates will no longer be provided pursuant to tariffs filed with the Regulatory Commission of Alaska. Effective November 27, 2019, if you are a retail customer, services you subscribe to will be offered under the terms and conditions, service guide and rate schedule available on the TelAlaska website at www.telalaska.com.
